At first, I was a bit apprehensive about what to expect, but I almost instantly realized that the Boomerang trip was going to be the best vacation I had ever experienced. Thanks for the memories!

In the middle of winter, bask in two weeks of Australian sunshine. We've put together a trip that highlights five unique aspects of this spectacular continent, without feeling like "If this is Sunday, that must be a koala." Here's a sampler of what's included:

✱ **The Beach.** Australia is famous for its beaches. We'll spend our first 24 hours on Bondi, Sydney's finest.

✱ **The Mountains.** Next come 3 days in the lush Blue Mountains. Hiking, rappelling, and other adventures will bring you close to the continent's unique wildlife.

✱ **The City.** Set on a sparkling harbor, Sydney is the world's friendliest big city. Our five days are full of options: harbor cruises, theater, great restaurants, a lively gay district, museums, the famous Opera House, and vast botanical gardens.

✱ **The Party.** Sydney Gay & Lesbian Mardi Gras can only be described with superlatives. It's the world's biggest gay party; Australia's biggest carnival of any sort. Our package includes choice seats for the parade extravaganza and tickets for the post-parade party.

✱ **The Reef.** Snorkel or dive on the Great Barrier Reef, the world's premier dive destination. Hike and swim in the nearby rainforest, and head out for a day of whitewater rafting.
