AMERICANS FOR AMERICA

Chairman

Dear Fellow-American:

Please read this letter carefully . . . read every word of it! Because what you will do as a result of this letter may duplicate the "job" our forefathers did in 1776 . . . you may well go down in history as one of the saviors of our country.

In May of 1955 we launched the enclosed PETITION to Congress to take the U.S. out of the U.N. trap. We planned to submit the PETITION at a Convention of Patriots in Washington after Congress re-convened early in 1956. But for various reasons we were forced to postpone that Convention. One reason was Ike's heart attack. Ike is the strongest protector of the U.N. We want him present when we submit our PETITION--to deny, if he can, our charges . . . or, by his silence, confirm them!

Another reason for the delay: the Committee that will submit the PETITION to the Senate Foreign Relations Committee should be--MUST BE--of such high standing with the American people that Congress will realize that it is a mandate and a demand of the People. To assemble such a Committee was difficult and took longer than was anticipated. But now our Committee is composed of great Civic leaders and, even more important, of men like Generals Stratemeyer, Emmons, del Valle, Lawton and other Field Commanders of World War II and the Korean War, whose very appearance on the Committee confirms our charges against the U.N. and the traitors behind the U.N. In addition, the Chairman and Spokesman of the Committee that will serve our Petition on the Senate Foreign Relations Committee is Congressman Usher L. Burdick.

We intend to definitely establish the fact that U.N. treachery was directly responsible for the murder and maiming of 143,000 of our sons. We will establish other facts which will prove that our retreat and defeat in Korea was master minded by the Communists through the U.N. The internationalists, one worlders, Atlantic Unionizers will employ every scheme to belittle or prevent the production "Thieves Paradise" to be shown at the Shubert Theater, 9th & E Streets, N. W., Washington, D. C., on May 20th which will reveal the U.N. plot to destroy States' Rights and Constitutional Government.

The presentation of our Petitions to the Senate Foreign Relations Committee plus the Convention during the week of May 20th should instill courage in the hearts of many people whom have heretofore felt that they were fighting a hopeless cause. Many top level statesmen will speak at the Convention and you can be sure they will not talk on coexistence or our Christian brothers - the Communists.
