

THE WORLDWATCH DATABASE DISK SUBSCRIPTION

Our Database Disk lets you import all the tables and graphs in Vital Signs into your own spreadsheet program, presentation software, or word processor. You can study the data on your computer screen to make "what-if?" projections, or overlay and compare different trends to gain a better understanding of the whole. Or, you can print the charts and graphs to illustrate lectures, articles, or to bring old textbooks up-to-date.

A FIRST-RATE RESEARCH AND PLANNING TOOL

At just \$12, Vital Signs is a bargain — a single volume that distills the efforts of our entire research staff in tracking down research from around the globe in dozens of disciplines. All trends are accurate, comprehensive, and up-to-date, from —

- Databases of national governments
- United Nations agencies
- The International Monetary Fund
- Private researchers
- More than 100 specialized newsletters on topics ranging from alternative technology to meteorology
- Some 200 periodicals from around the world
- The databases from scores of other research institutes

Whether you teach, do research, write articles or speeches — or evaluate the work of others — you, like our thousands of other readers, will find Vital Signs indispensable. And when you use a fact from Vital Signs you are on solid ground. Only the most well-researched and documented data are included. Each chart or graph is sourced to show you where the data came from.

RESERVE YOUR COPY TODAY

Vital Signs 1997 is coming off the press now. And I'm writing to you so you can be among the first to receive a copy. Whether your primary concern is the environment, the economy, or social trends — or the vital connections among them — you'll find facts in Vital Signs that are not available or accessible elsewhere.

If you want to know the trends shaping your future ... and the future of this special planet we call home ... send for your copy of the book The (London) Guardian says —

"...makes all other works of reference look trivial."

Sincerely,

Lester R. Brown
President

PS: Receive Vital Signs FREE when you order the Worldwatch Database disk, which lets you import all the data in Vital Signs into your spreadsheet program, presentation software, or word processor. See the enclosed order form for details.
