

CAUGHT IN THE ZIONIST SAND-TRAP

By Marilyn R. Allen

According to latest reports from D.C. (March 1), the Zionists Israelis and their catspaws have taken over our Congress, who are standing with the Israelis rather than President Eisenhower.

If the UN, the U.S., and the so-called 'Christian' world makes another mistake and yields to Zionist pressure: gives the Israelis the desired 'guarantee', or their own way, then there is NO HOPE whatsoever for Justice or Peace.

It means war. Injustice has been consistently practised by the Zionist Jews, Britain, France and the U.S.A. against the Arab World. If it is perpetrated again, then look out for the explosion -- which I hope will blow the Israelis into the sea!

The American people are being betrayed by these Zionist-favoring, Congressmen-Senators, most of whom apparently are willing to send American boys to war in the Near East to defend the aggression of the Zionist Israelis. Thereby they will destroy their own country and the principles on which it was founded.

If he did not know it before, President Eisenhower now knows WHO IS BOSS: -- the Zionist Jews -- just as some of us have long maintained.

The issue has now come out into the open, and the President is left standing naked and alone, so far as Congress is concerned. He must now depend on the AMERICAN PEOPLE to uphold him: but they are rarely taken into account in these life-or-death matters.

Mr. Eisenhower has tried to be fair and just in this matter: only to find himself deserted by the Congress, in favor of these alien, dual-allegiance Zionists who are openly showing their power for the whole world to see.

HE IS CAUGHT IN THE ZIONIST SAND-TRAP! If these aggressive Zionist Israelis are not put in their place NOW, once and for all, then Peace and Justice go out of the window. Let us never again hear these words mouthed by the cowardly politicians.

If we go to war in the Near East on the side of the Zionist Israeli State, then we will have against us the combined might and numbers (many, many millions) of Russia, Red China, Indians, in short, all the Arab-Asian-African bloc, as well as being hampered by the UN (as in the Korean War), because it is not controlled by our friends.

We cannot win a war like that, 9000 miles from home -- even if our supply lines and Home Base were not bombed. BUT we seem to like to commit national suicide for the sake of foreigners.
