The AAVS is a national organization committed to ending animal experimentation. Through our educational, totally non-violent campaigns, we promote humane science and expose the myth that animal research is essential to human health. Our membership includes physicians, scientists, attorneys, artists, ministers, students, truck drivers, caterers, homemakers... Members receive magazines, literature, mailshots and much more...

Please enroll me as a member of the American Anti-Vivisection Society. (Block letters please)
