

Page Three

People living with AIDS face enough overwhelming problems without having to worry about where their next meal will come from.

So please consider sending a special gift of meals--for one week or two--or whatever is best for you. We'll include your signed gift card along with the meals so the recipient will know how much you care.

I assure you each and every dollar will be spent to bring a measure of hope and peace to those struggling to cope with AIDS on a daily basis.

I want to thank you in advance for caring. There is simply no substitute for the kind of understanding your gift represents.

Sincerely,

*Bernice Time*

P.S. Despite the recent and exciting news about promising drug treatments, the need for AIDS Action's services continues. Please stand on the front lines with me and send whatever is best for you today. Thanks!
