

millions of the American people no longer honor and recognize the sovereignty of God in our national life. As a nation of two hundred million people we have assumed that Almighty God, has just forgotten about this planet, that He is no longer concerned about the personal and national affairs of mankind, and that **His Hand** is not over our national life and destiny. Somehow, in the nebulous realms of organized religion, good honest American church goers have been permeated with the general thinking that God no longer plays a significant role in the lives of nations and of world events in general. Today in America, **man has become God**, and God has been denied a place in our national life. For the laws of Almighty God, we have substituted man made edicts and decrees which threaten to destroy us and our very children. The typical church going American views Jesus Christ as existing in some far away place called 'heaven' where He will one day gather all of His saints together to dwell in heavenly bliss forever more. They fail to see a Sovereign God whose hand is over history, a God who has declared the end from the beginning, and a God who has ordained a '**plan**' to establish a universal world wide Kingdom upon this earth. The debasement of God and His Sovereignty and the exoneration of man has resulted in the idea that '**man is god**' that man can alone, without God, create a world wide kingdom of peace together with scientific miracles. Millions of Americans have been taught to pledge blind allegiance to man and what man can do, rather than realize that God is

sovereign in history and that the earth we live on, is pushing forward toward a fulfillment of Manifest Destiny under the sovereign hand of our Father.

By destroying the Sovereignty of God in our national life, **organized religion**, has brought about a 'fear psychosis' that has robbed millions of Americans of their security under the Sovereign blood of Jesus Christ and His Kingdom, soon to come on earth. **It has taught men not to fear God.** There is no fear of God in the land today. Modern America is a smug, sophisticated, arrogant, nation that no longer has a place for old fashioned **God Fearing, Bible believing** people. The wrecking and destruction of the Sovereignty of God in America by the clergy of our land has taken man away from God and the Scriptures, to place his faith in a false peace, a false prosperity, and in the idea that man alone, is the end of all that happens on this earth. Surely this great lie has brought about a famine of God in our national life. Jesus Christ and the Holy Bible are no longer honored in our National life. God no longer has a 'master plan' for our planet and for the peoples of this earth in the minds of millions of Church goers today. I ask you? Can there be a spiritual revival among two hundred millions Americans who have been taught from the pulpit that **God is dead**? Can it be that a great nation can resurrect itself from a grave of spiritual darkness when organized religion, under the guise of **Christianity**, has robbed two hundred million Americans of its right to fear God and keep His
