

What does Planned Parenthood say to Educators, Parents and Supporters?

"...You can say to your male boyfriend..my parents won't be home til 2:00. Why don't you stop at Lucky's and get some condoms..."

"...If you're out in Waller Park...and you've got about half your clothes off, and you say to your boyfriend, 'Freddie, let's get our clothes back on and drive home and get my diaphragm and come back to the park'" "And the advantages of the pill are that a woman can take a pill for breakfast every morning and then later on that day nobody has to stop and do anything, nobody has to be embarrassed finding a diaphragm, putting on a condom or anything else..."

"And let's face it, when you males like to get into your females, it's fun, enjoyable..."

The above excerpts were taken from a taped presentation at Santa Maria High School, Santa Maria, Calif. This class was given by the Director of Santa Barbara North County Planned Parenthood, Robert Webber, November 16, 1983.

"Because some people, **some religious and semi-religious groups dominated by elderly men**, simply cannot deal rationally with sex. They can't talk about it rationally, can't think about it rationally, and above all can't give up the power which controlling other people gives them. **They control other people through sex.** What groups? The Roman Catholic Church . . . The Mormon Church. . . ."

THE GREAT ORGASM ROBBERY: (Page 15 -Inside Back Cover): "Never use sex as a weapon. Never use "love" as a weapon. You wouldn't strangle a person — cut off their air — to force them to do something. So don't cut off love, either. People need it just as much as they need air. Relax about loving. **Sex is fun**, and joyful, and courting is fun, and joyful, and **it comes in all types and styles, all of which are OK.** Do what gives pleasure and enjoy what gives pleasure and ask for what gives pleasure. Don't rob yourself of joy by focusing on **old-fashioned ideas about what's "normal" or "nice"**. Just communicate and enjoy." (Emphasis added.)

THE PERILS OF PUBERTY: (Page 15): "Sex is too important to glop up with sentiment. If you feel sexy, for heaven's sake, admit it to yourself. If the feeling and the tension bother you, **you can masturbate.** . . ." (Emphasis added.)

TEN HEAVY FACTS ABOUT SEX: (#3): " . . . Most people are heterosexual. Some people choose to be homosexual or bisexual. A few adults choose not to have sexual relations — which is okay, too. We have no right to condemn a person because of his or her sexual preferences. . . . Letting yourself be bothered by fear of homosexuality in yourself or others is irrational. . . ." TEN HEAVY FACTS ABOUT SEX: (#4): "A lot of people wonder about **oral and anal sex** (mouth to penis, vagina or anus; or penis to anus). Some say that such acts are perverse or degrading. Other people consider them to be a normal part of foreplay or a substitute for intercourse. . . ."

"We say, **no one has the right to condemn a person** on the basis of that person's **manner of sexual expression.** . . ." (Emphasis added.)

THE PROBLEM WITH PUBERTY: (Page 17): "If you're **not** supposed to go after a girl for sex, **what are you supposed to do?** . . ." (Emphasis added.)

TEN HEAVY FACTS ABOUT SEX: (#10): " . . . Teenagers who are afraid to get help because **parents might get upset** should seek counseling at a local **Planned Parenthood** or at a county or hospital family planning clinic. They can help you prepare for a baby or arrange an **abortion**, or refer you to a place that can **help** you. . . ." (Emphasis added.)

THE PERILS OF PUBERTY: (Page 8): " . . . **There are certain things that you do not want to talk about to your parents.** There are certain things they don't want to talk about to you. . . . The only thing you owe anyone is courtesy. . . . You don't owe anyone "love." . . ." (Page 9) "If you think your parents are great, that's wonderful. If you don't get along, that's too bad but it's no lifelong tragedy. **How you feel about them isn't nearly as important as how you feel about yourself**, and if you start thinking and talking about them all the time, you may find yourself still doing it at age fifty with no one listening. . . ."
