ZION VS. THE IMPERIUM

America has entered the most fateful period in its history. What happens during the next few months or years will determine which of these two possible futures becomes reality:

1) A world of planned nuclear wars and concentration-camp massacres in which coloreds kill whites, Communists kill coloreds, Zionists kill Communists, and Rockefellers and Rothschilds kill each other, destroying all civilization and leaving the earth a dead, dark ball hurtling through space.

2) A world of a White Imperium, dominated by a United States of North America and a United States of Europe stretching beyond the Urals, enjoying the highest standard of living in history, continuously raising the quality of life in peace, and building upon the ruins of the discredited era of Materialism, Communism, and Zionism.

People all over the world are slowly but surely awakening, and rejecting the International Banker Conspiracy which is responsible for all the unnatural calamities of the modern world. Millions are more and more losing their inhibitions, and striking out in their own way to create the White Nationalist order. The issue of Race is finally beginning to surface as the Higher People's angry reaction to their Civilization's having been shoved out of power. Examples:

- 1) The United Nations voted to condemn Zionist Aggression.
- 2) The Red Zionist Traitor Kissinger is an albatross ruining Ford's election chances, and everybody admits it.
- 3) Polls show Jimmy Carter's "landslide" support is ridiculously shallow, and is merely "Weimar Apathy" which could stampede into a White Revolution if not manipulated cleverly enough by David Rockefeller.
- 4) Conservatives looking at Schweiker now see the true Reagan, and must now look to new political and racial alternatives to self-annihilation.
- 5) Spiro Agnew has joined General George Brown in exposing the Zionist Communications Monopoly and Mideast War Plot.
- 6) The Conspiracy's porno magazines, long taken for granted as too corrupt to go patriotic, are revealing the story of the USS Liberty 1967 Israeli Pearl Harbor attack against America to millions of truth starved readers.
- 7) Kissinger's planned Southern African war of white extermination is depriving Zionism of its desperately needed smokescreen of anti-Communism and is showing the Conspiracy to be specifically anti-white.
- 8) All Europe is frightened by Portugal-type domestic Communist rebellions, and the air is full of talk about need for repeating Mussolini's March on Rome, Hitler's March on Berlin, and a British Army seizure of power and pogrom against the Rothschilds.

Next please.....
