

COLUMBUS AND SOUTHERN OHIO ELECTRIC COMPANY

215 NORTH FRONT STREET

COLUMBUS 15, OHIO

June 10, 1959

Mr. Fred G. Clark
General Chairman
The American Economic Foundation
51 East 42nd Street
New York 17, New York

Dear Mr. Clark:

Our company bought and donated a set of the "How We Live In America" films to the Visual Education Library of the Ohio Department of Education about two years ago.

In order that we might make certain of their use in our service area the Visual Education Library permitted us to supervise their distribution last year and they have renewed this privilege again for the next school year.

Last year the "How We Live In America" film series was used in thirty-three school systems in our southern district. We furnished the charts and teacher's manuals to each school system in advance of the films in order to make possible a pure educational experience for the classes using them.

It was my privelege and pleasure to attend, along with my colleague Mr. Curt Koons, the meetings held in both Chicago and Detroit. We were greatly impressed with the programs and would like very much to have such a meeting held here in Columbus on the campus of the Ohio State University sometime this fall or winter.
