

you need to prepare, you are still somewhere between theism and Atheism.

According to sociological studies, there are about 60 million persons in the United States who are Atheists, persons who have rejected the concept of spending their life preparing to die; persons who have found the ultimate freedom, *freedom of the mind*.

This organization was founded for those of you who have found or want to find that freedom. We have fought consistently for the goals outlined herein. Dr. Madalyn Murray O'Hair was the litigant in the famous case which removed Bible reading and prayer recitation from the public schools.

You have read about our organization in *Time*, *Life*, *Playboy*, *Fact*, *Saturday Evening Post*, *Esquire*, and your local newspaper. You have probably seen Dr. O'Hair or Jon Murray on many television shows, both local and national, or heard them on radio.

Now judge for yourself by reading the enclosed aims and purposes and history of this organization to see if you want to join with the few, the proud, and the brave who are willing to stand up against ignorance and superstition. We need you, your support and numbers. You need us to foster, deepen and direct your courage to face religion head on in the battle for the human mind.
