
Fourth, pay special attention to this month's issue of FRC's newsletter, *Washington Watch* which is devoted to the growing controversy surrounding the UN. Share it with your friends and neighbors, so they, too, can see how decisions made in distant capitals are affecting their neighborhoods and their very homes.

Finally, join with us in prayer. Last November, advocates of abortion on demand, same-sex marriage, environmental radicalism and other similar causes suffered a stinging defeat at the ballot box. Now they are trying to use the power of the UN to force their agenda on people everywhere. At the UN, unelected NGOs and totalitarian governments hold equal sway with the governments of free people. Stand with us as we ask God's favor on our efforts to protect the family from those who, for whatever reason, cannot leave the Creator's design alone.

As always, my staff and I truly appreciate your generosity and your kind notes of encouragement. The battle for the family has sometimes been a lonely cause. With your help, that's no longer so. Thank you again, and God bless you.

Sincerely,

Gary L. Bauer

President

P.S. It has been a busy summer here in Washington with new attacks coming at the family almost every day. Unfortunately, the summer has been slow financially—as it usually is. Please consider the Family Research Council as you decide where to direct your giving in the weeks ahead.
