# STRATEGIES

**How to thrive in tough times—and survive comfortably**

Back in the 1930s, during the depths of the Great Depression, there were still investment opportunities.

While millions of people were on the breadlines, and just about everyone else was thankful to have a job—other people were profiting from the opportunities, and becoming wealthy.

That's because there's always opportunity—in even the worst of times. And you can always survive. Comfortably. But how?

To help you make it through the coming couple of years, the editors of International Forecaster have prepared a 15,000 word report—CRISIS STRATEGIES, and it is full of useful information, for almost every contingency....

- **Where to find credit:** Low interest loans can still be found in some of the most unusual places. And they're a lot easier to obtain than you might think.

- **Tax avoidance** for the hard money investor: How to shelter your investments in gold...silver...precious
