

"SIGNS OF THE TIMES"

What's wrong with white?

To the Editor:

On June 10, 1992, the Long Beach Press-Telegram published a commentary on the selection of Presidential Candidate Bill Clinton's choice of running mate which was captioned: "Clinton ducks risk — picks white man."

The implication in that headline was that Clinton might have originally considered a three-legged green goat for his running mate but decided at the last minute, that even the staunchest of "politically correct thinking" advocates of "Multiculturalism" and "Diversity," might object to the color "GREEN" because it wasn't indicative of the multitudes of Hispanic, Asian and other non-White immigrants who are repopulating our country to such an extent that the choice of any white candidate for any office will soon be a punishable offense!

As a white, American citizen who takes great pride in every aspect of that status, I find the aforementioned headline infuriatingly offensive and terrifyingly indicative of the abject contempt in which all whites will one day be held by a "multicultural"-"diverse society!"

It is inconceivable to me that a nation that for hundreds of years, boasted of a citizenry comprised of fiercely independent, free-thinking individuals, could be transformed into a bunch of "sycophantic parrots," in the span of a generation!

"A Thought to Ponder"

It has been easy enough for the media and militant ethnic groups and others with a vested interest in destroying America's "national identity" to deceive white American citizens into accepting that everything they've been brought up to believe in and cherish was a bad mistake and must be changed!

What they neglected to tell us, is what takes its place?

This "LETTER TO THE EDITOR" recently appeared in our local newspaper....

Now we know the future is hidden from those who make it---But not from God.

There's a great day coming,
The 'Day of the Lord.'

America has a rendezvous with Destiny...How soon will that day come?

America's altar and hearthstone are defiled---It is but the calm before the storm.

How rapidly we as a people are approaching the dread Apocalypse.

Cannot you see the handwriting on the wall?

Tomorrow brings the final reckoning...
