

IDEAS ON LIBERTY

- When men rightly apprehend their relationship with the nature of things and with each other, there is harmony and growth. But misunderstanding portends trouble, leading possibly to the collapse of a civilization if the wrong ideas are widely shared.
- The Foundation for Economic Education works within the framework of the spiritual and ethical understanding embodied in the heritage of Western Civilization. Its conviction is that this heritage, in its social aspects, spells out into the philosophy of limited government and free market economics. Political liberty and economic freedom, in turn, are important in man's quest for material sufficiency and spiritual growth.
- The Foundation's monthly publication, THE FREEMAN, prints articles dealing mainly with current efforts to restrain economic and political liberty, with the misunderstandings and fallacies which cause well-meaning people to invoke these restraints. On the positive side, it attempts to explore ways in which men in freedom resolve their economic and political problems.

THE FREEMAN may be forwarded anywhere in the U. S. A. No wrapper required.
