WARNED AGAINST ENTANGLING ALLIANCES

Why forego the advantages of so peculiar a situation? Why quit our own to stand upon foreign ground? Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalry, interest, humor, or caprice?

It is our true policy to steer clear of permanent alliance with any portion of the foreign world. - George Washington's Farewell Address.

STATE-CREATED CORPORATIONS SUPERSEDE STATES IN POWER

The States are themselves forbidden by the Constitution to exercise any control over interstate or foreign commerce. The States are themselves prohibited by the Constitution from entering into any agreements among themselves or with foreign nations without the consent of Congress.

How many of us stop to think even for a moment that the States, which have no power over interstate commerce, over foreign commerce, or over foreign affairs, have created corporations which have engaged in exactly the same activities in which the States are forbidden?

COMMUNISTS EXPECT US TO DESTROY OUR OWN SYSTEM

This Nation is engaged in a cold war with our enemies. That means an economic war. The Communists sit back in the Kremlin, confident that they will watch our leaders destroy our system by extortionate values.

Is our leadership appearing to be weak and vacillating and which is ignoring the basic concepts which have guided the policies of this Nation from its very inception?

I, for one, feel very uncomfortable in the company of a band of Communist gangsters on whose side our policy makers appear determined to place this Republic. I do not want to stand shoulder to shoulder with an outfit which has violated and is continuing to violate every principle of responsibility, and whose chosen partner in a series of such outrages against decency is Communist Persons. I do not want to give aid and comfort to bandits, nor to assist them in legalized thieveries.

I detest war, but every teaching of history shows that men, and nations of men, will fight to survive. The South believes its life as a nation is threatened and it must strike out to survive. Can we now expect it to abandon the very minimum protections it sought to gain by its segregation fight for survival? Would we ourselves accept such a course were the North in that South's precarious position?
