

"THE TOUCHY ANTI-CHRIST: It always amuses me when a bootlicker gets kicked in the teeth. Those who kowtow to the Jews and lick the boots of the Zionist gang can never quite satisfy the Jews --- and when I say the Jews, I am not referring to the whole body of the Jewish people --- I am referring to the official manipulators, the ones who run the political machines, the ones who own the periodicals, the ones who control the conventions."

"DULLES: It seems that Dulles has offended the political Zionists by not agreeing to the sale of arms to the Palestine Jews. This cannot be construed as an alertness to the dangers of political Zionism as much as perhaps it can be related to Mr. Dulles' interest in Arabian oil. There comes a time when demagoguery produces a diminishing return. As this is written even Rabbi Hillel Silver, who is referred to by some as the 'king of the Jews' in the U.S.A., is issuing statements critical of Dulles and Eisenhower for not giving the Jews in Palestine all they want. It will be interesting to watch the chameleonic skin of Dulles and his cohorts to see whether or not the Zionist pressure versus oil pressure can change the color of American diplomacy."

"ZIONISM: The Reverend Edward L.R. Elson, Pastor of the National Presbyterian Church in Washington, D.C., recently branded political Zionism as un-American. He said to be a political Zionist was as bad as being a member of the German-American Bund during World War II.

"Perhaps the most important periodical put out by the Catholic Church -- at least, one of the most important, is a periodical entitled "Our Sunday Visitor." In a recent issue of "Our Sunday Visitor" the editor was courageous enough to say: "The state of Israel should not exist."

"Some of us have realized this for many years. We have realized that political Zionism has become a monstrous fraud being imposed upon the American people, including the American Jews. Most people do not realize that the Zionist political machine raises more money for world politics than any other political organization on earth. Furthermore, they have so deceived the American people that every gift made to this political organization is tax exempt. By a clever program of coercion these Jews have been able to create the impression that anyone who dares oppose their political machinations is anti-Semitic. The fact of the case is that there are many prominent Jews who are opposed to Zionism, and the most extreme statements that have been made to reflect on the integrity and character of the Zionist political machine have been made by prominent Jews. Even these Jews who have opposed Zionism have been smeared and isolated and condemned. Recently 1300 Rabbis issued a statement condemning any Jew that was opposed to Zionism.

"Because of the synthetic circumstance that has been developed, Senators and Congressmen and clergymen and public figures in general are afraid to discuss Zionism, because they fear the awful accusation of anti-Semitism. Anti-Semitism is an evil word. It is a blight word which is attached to people who dare resist the tyrannical program of propaganda being put on by the Jews. Someone says, "How can such a small percentage of our people terrorize a whole nation?" It is because
