AMERICAN ATHEISTS

2210 Hancock Drive, Austin, Texas 78756

Friend:

A few days ago our President, Dr. Madalyn Murray O'Hair, asked me to send you some introductory material concerning Atheism and the concept of separation of Church and State. This material was designed to show you how religion rips you off. Every church you see and every church business you don't see causes your taxes to rise. In 1976 New York City almost went bankrupt and you probably wondered why. Over 45 percent of the property on Manhattan is owned by tax exempt organizations, most of them churches. With 45 percent of the city's tax base gone the bankruptcy is easily understood.

You can help stop this rip-off of yourself and your fellow citizens.

This organization is hurting the churches where it counts, right in their tax-exemption. American Atheists continues to expose religious groups and their dollar grabbing practices through legal and educational action nationwide.

You can help American Atheists in this struggle by becoming a member. Your membership dues and whatever contribution you may wish to make counts. Join in the fight with us to remove the financial burden of religion today.
