

POLITICS & RELIGION

To interpret GOD to people today, to discern the Signs of The Times, to make known the ways of GOD to his people, to read and interpret the handwriting on the wall, the history of His Mighty Deeds recorded in The Book; and seen in the daily news is the task of the Preacher...

Mankind sees the hand writing, but do not know who is writing, nor what is being written every day. They do not see the hand of GOD in everything! Nor do they know... *"in wrath remember mercy."*

People, [especially Christians] do not know that GOD is writing out our destiny as a Nation and declaring its judgments before our eyes... Does *"the most High rule in the Kingdoms of men?"* WE claim He does.

Note the cartoon on this page---It tells us something is wrong; most desperately wrong in American Politics and Religion. Daniel the Prophet said: *"...And when he shall have accomplished to scatter the power of the holy people, all these things shall be finished."* Dan. 12:7b.

Since 1900 great changes have taken place within the life and thought of our world...

Measuring events in terms of transformation of our National life within the U.S.A. The era following the great Civil War produced an entirely new outlook on our culture and politics. It was the watershed.

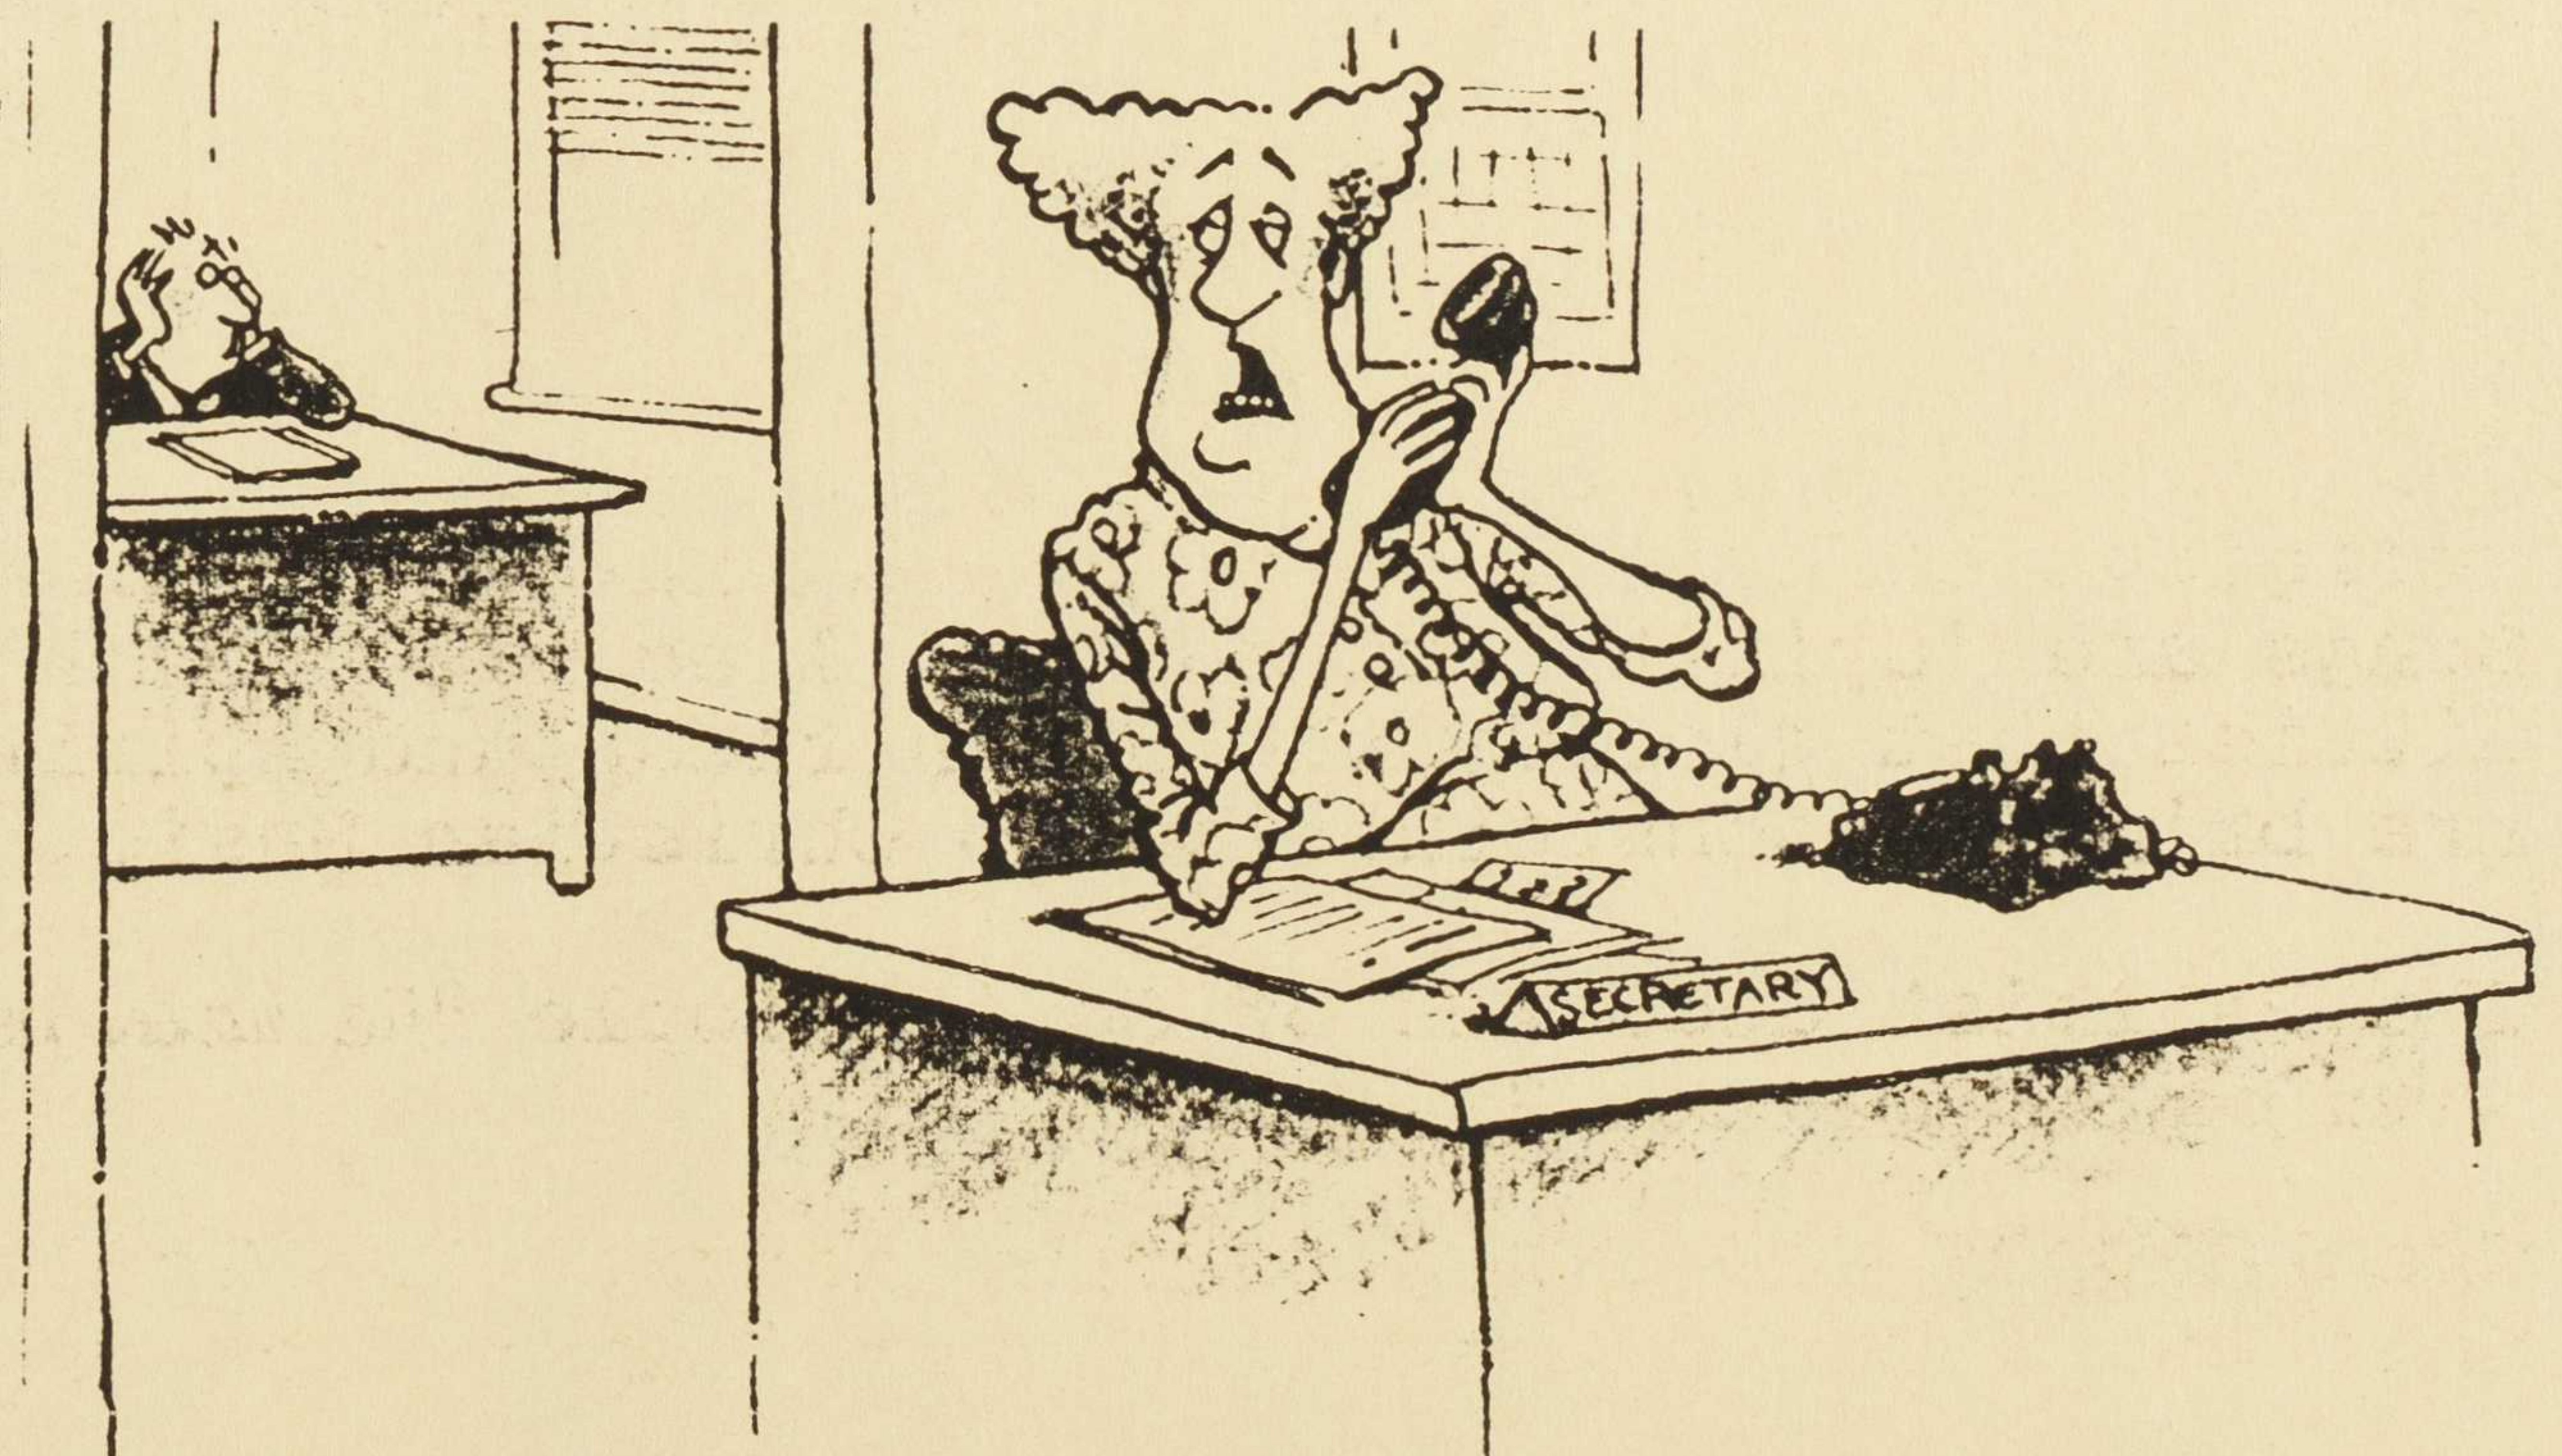

The abolution of slavery and the rise of government control over States Rights, the closing of the great Western Frontier, the increase of immigration (and now it is a massive illegal flood) plus despotic public education, have worked together with humanistic forces to make the people of American a different race from those who determined its destinies a century ago.

Political and social changes have been accompanied by religious upheavals as well. Jeremiah the Prophet says it best: *"And the wild asses did stand in the high places (of worship) they snuffed up the wind (The moving of the H.S.) like dragons; their eyes did fail (not seeing truth) because there was no grass."* (no WORD from GOD) Jer.14:6

Such confusion compounded does not bode well for our National future...

If it were not for the NATIONAL MESSAGE OF OUR BIBLES we as a people would have no 'HOPE.'

Believe me---THERE'S A GREAT DAY COMING! So says The Liberty Bell!

"It's somebody from Washington. He says our next 15 converts gotta be Hispanic."
