

FAMILY RESEARCH COUNCIL

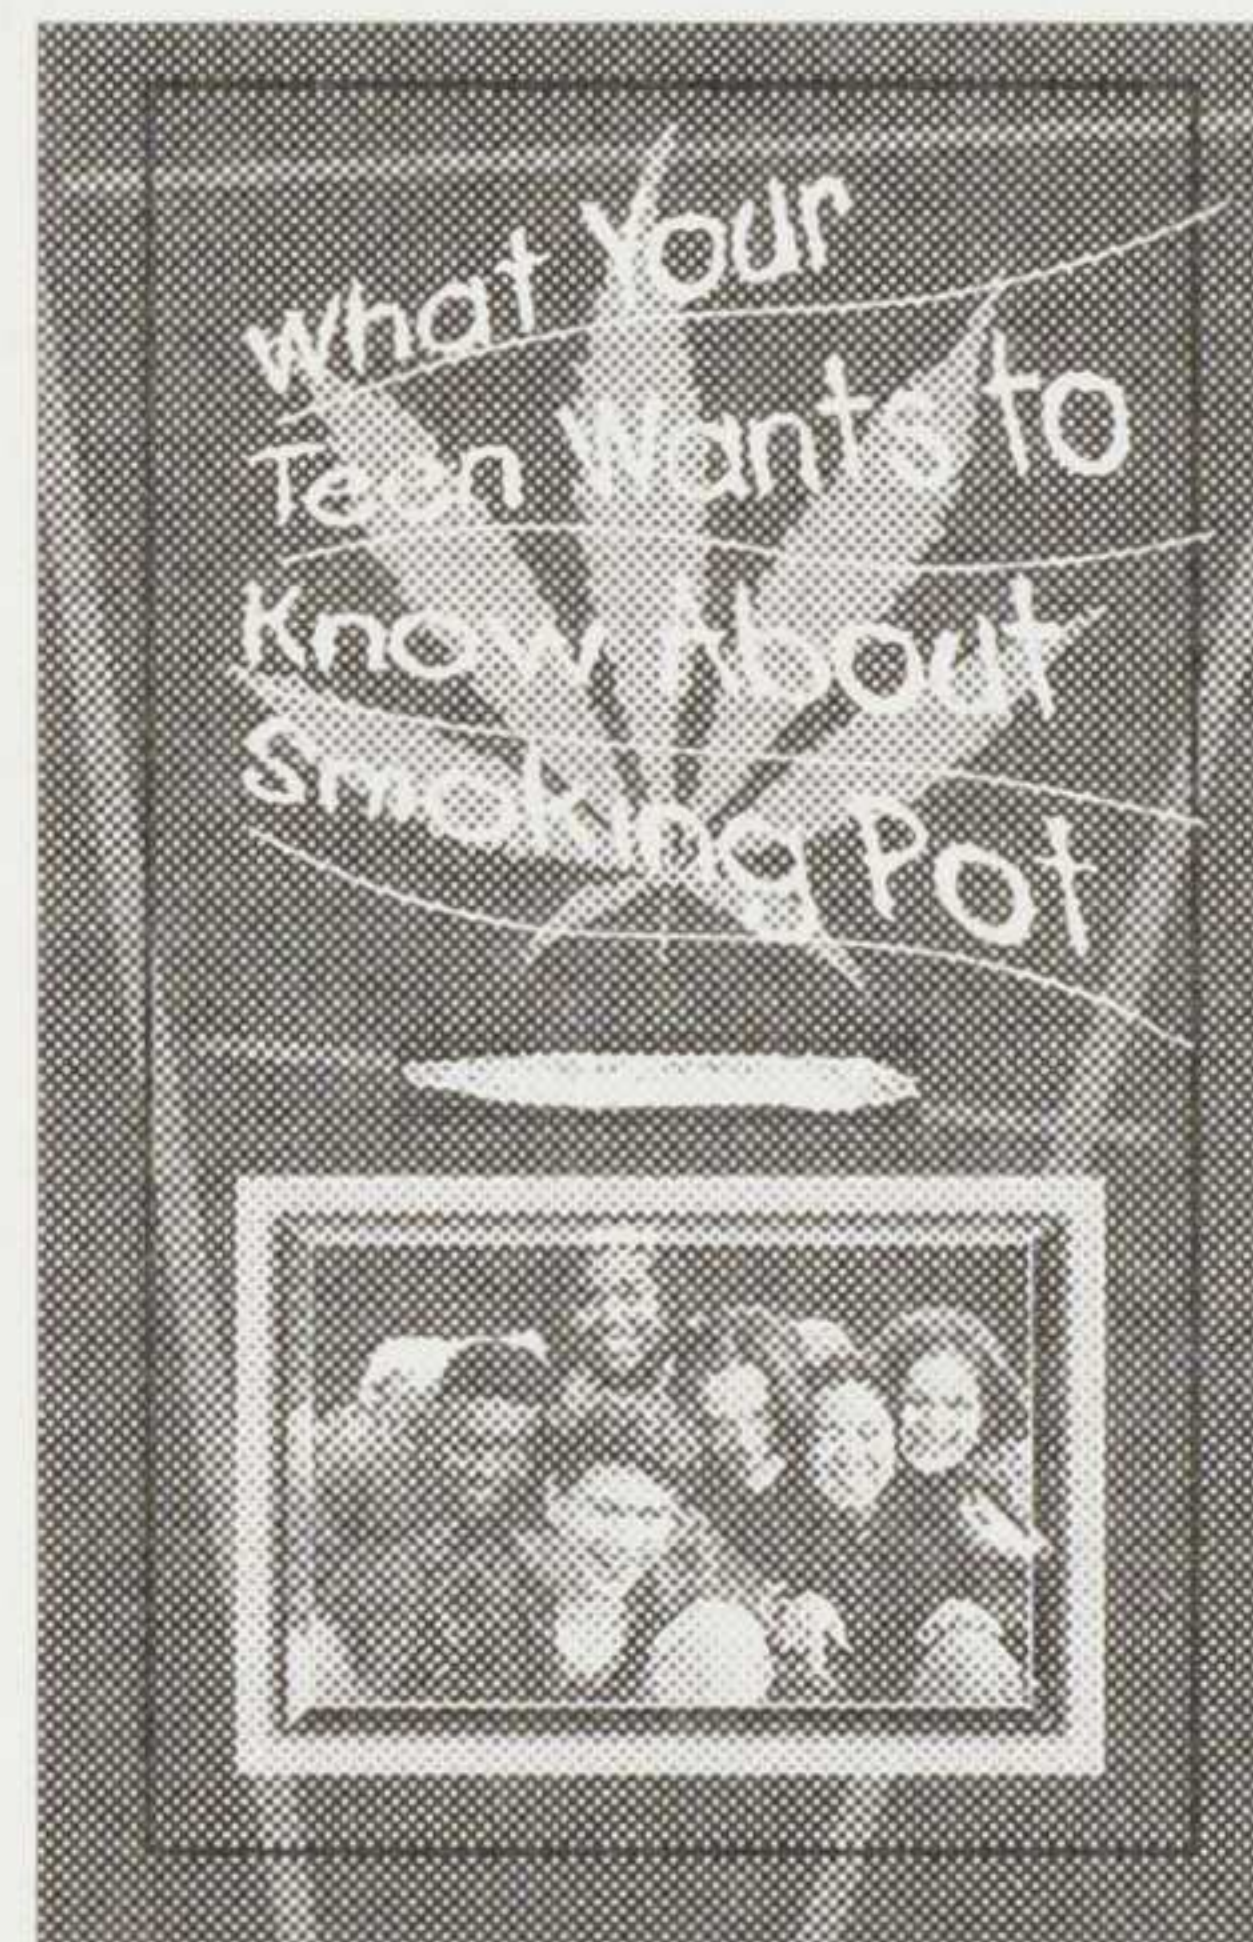

"When the righteous thrive, the people rejoice; when the wicked rule, the people groan."

Proverbs 29:2 (NIV)

The repression practiced by the Communist Party in China is despicable and dehumanizing, yet our government is currying its favor. It is utterly shameful for the United States -- a nation born out of the rejection of tyranny -- to condone this brutalization of our fellow man. And now the world is watching to see what America, long known as an advocate for the oppressed, will do next.

FRC is offering further information on the persecution of Christians in China and the United States' current China position. Our packet includes recent articles, op-ed pieces and advertisements that provide detailed explanation of

our concerns in this vital area. To order this important resource, please return this reply card or simply call 1-800-225-4008.

Also this month, FRC is offering *What Your Teen Wants to Know About Smoking Pot*. This booklet is designed to help parents overcome their hesitation to answer the hard questions that young people have -- and may be afraid to ask -- about drugs and the pressures to use them. In addition, we are making available FRC's drug poll results and FRC's *Drug Facts*, our new monthly fax service solely on the drug issue.

FRC appreciates all you do to defend family, faith and freedom in our country and abroad. May God bless you and yours!
