

the head of NATO says, "A European Security Conference could be used as an instrument for the Soviet Union to dominate Europe."

The Communists are claiming all of the Far East. North Korea claims South Korea; North Vietnam, Hanoi, claims South Vietnam; Red China claims Formosa, Free China. The action of Canada in ousting the Free Chinese and installing the Red Chinese involved a clear statement of the Reds that they were the legal government and were entitled to Formosa.

The Associated Press story sent from Rome announcing that Italy had recognized Red China involved the same demand. The story said, "Italy's recognition of Mainland China reflected the strength of the Italian left, the desire of the government to play a wider role in world affairs, and the hope of expanding Italian trade with a potentially enormous market of 730 million Chinese." The story opened up, "Roman Catholic Italy formally recognized Communist China Friday in search of political influence and a greater trade outlet in the world's most populous country. . . . The Peking-Rome communique included Communist China's claim that Formosa is an 'inalienable part' of its territory."

What has been called secret talks have been going on for 18 months in Paris to bring about this exchange of ambassadors. The effect of all this has been to neutralize already friends and allies in the Far East. Red China based radio stations, November 9, attacked "Malaysia's new foreign policy which calls for neutralization of Southeast Asia and diplomatic relations with China." Thus the Far East is capitulating.

The one explanation of all this is the weakness of the United States, and right now the weakness of the Nixon Administration, which has decided to eliminate issues raised by the Vietnam War from its political actions. A four-page headline on the front page of the *Asahi Evening News* of Tokyo reads, "Nixon says Viet war will not be campaign issue" and that he will continue "a major winding down of the Vietnam war by the 1972 elections. His press aide, Ronald L. Ziegler, made this announcement from Key Biscayne." This means one thing, that all of Asia, East Asia, is now going to capitulate to the demands of the Communists and that Mainland China is arising as a great force for a militant Communism.

The Communists everywhere are calling for victory.

Prince Souphanouvong, the Pathet Lao's leader in a feature published in the *New York Times*, September 9, called upon the people in the United States who want peace, the anti-war element, to join with his people to "combat together and together achieve the victory."

Communist China is emerging as the force that cannot be stopped. The liberal, leftist forces are beginning to preach that she must be accepted, appeased, and granted her wishes.

The crisis confronting the free world at the present moment is deeper, darker and more dangerous than ever before. Fear is being generated on every hand, and increasingly so inside of the United States of America. All of this has been coming to the surface. It is now more openly acknowledged. The Nixon policy of co-operation, not confrontation, of negotiation not the stopping of the aggressor, has released these forces and given them their opportunity for action.

One can understand why the Nixon Administration so vigorously and determinedly stopped Vice-President Ky from coming to speak to the United States March for Victory in Washington, D. C., October 3. One can also understand that with his present posture, his determination, his administration will oppose all efforts to alert the people to the dangers and the threat of Communist advancements.

Deception is everywhere in the air; and the press with its liberal, leftist orientation is seeking to advance the policy that gives the Communists the advantage.

The answer to this must come from those who fear God, who believe that righteousness must be honored by the United States in its dealings with the godless powers that are aggressive and are conspiring to destroy America.

A nation such as Red China should have no place among civilized nations. The slogan must now go up everywhere, *Red China Must Be Stopped*.

Let it be declared that if Red China is admitted to the United Nations that the United States will immediately withdraw from the United Nations
