

Kill? gives you the facts you need to know.

Powerful forces in our culture are demanding another "right" – the right to doctor-assisted suicide. In the new primer, *To Care or To Kill?*, FRC writer and analyst Teresa Wagner, Esq., explains the Pandora's box involved in legalizing assisted suicide. Explaining topics from Jack Kevorkian's destructive influence to current legal and legislative remedies, this landmark booklet provides you with the framework for understanding the doctor-assisted suicide debate in an easy-to-follow format. Most importantly, Wagner offers solutions and shows how you can get involved to make sure our nation cares for *all* lives, especially the most vulnerable among us.
