"Jewish unlawfulness is tolerated because powerful brokers can dictate terms on Congress and the Administration" ...

"Just as Hitler forged a conflict between Judaism and Christianity, apologists for Israel crave for Islam to be at odds with both Judaism and Christianity."

— Salam al-Marayati, Director of the
Muslim Public Affairs Council and nominee to the
U.S. government's National Commission on Terrorism

Rosh Hashana 5760 / 1999

Dear ZOA Member:

Should an extremist who justifies Arab terrorism ... compares Israel's supporters to Hitler ... and rants about "Jewish unlawfulness," be appointed to the U.S. government's National Commission on Terrorism?

Of course not!

That's why we at the ZOA led the recent campaign against the nomination of Salam al-Marayati, Director of the Los Angeles-based Muslim Public Affairs Council.

We exposed Marayati's pro-terrorism statements.

We contacted Members of Congress to intervene, and convinced journalists to write about Marayati.

We urged other Jewish leaders to get involved.

The ZOA's protests worked.

On July 9 — less than three weeks after our campaign began — the nomination of Marayati to the National Commission on Terrorism was canceled.
