

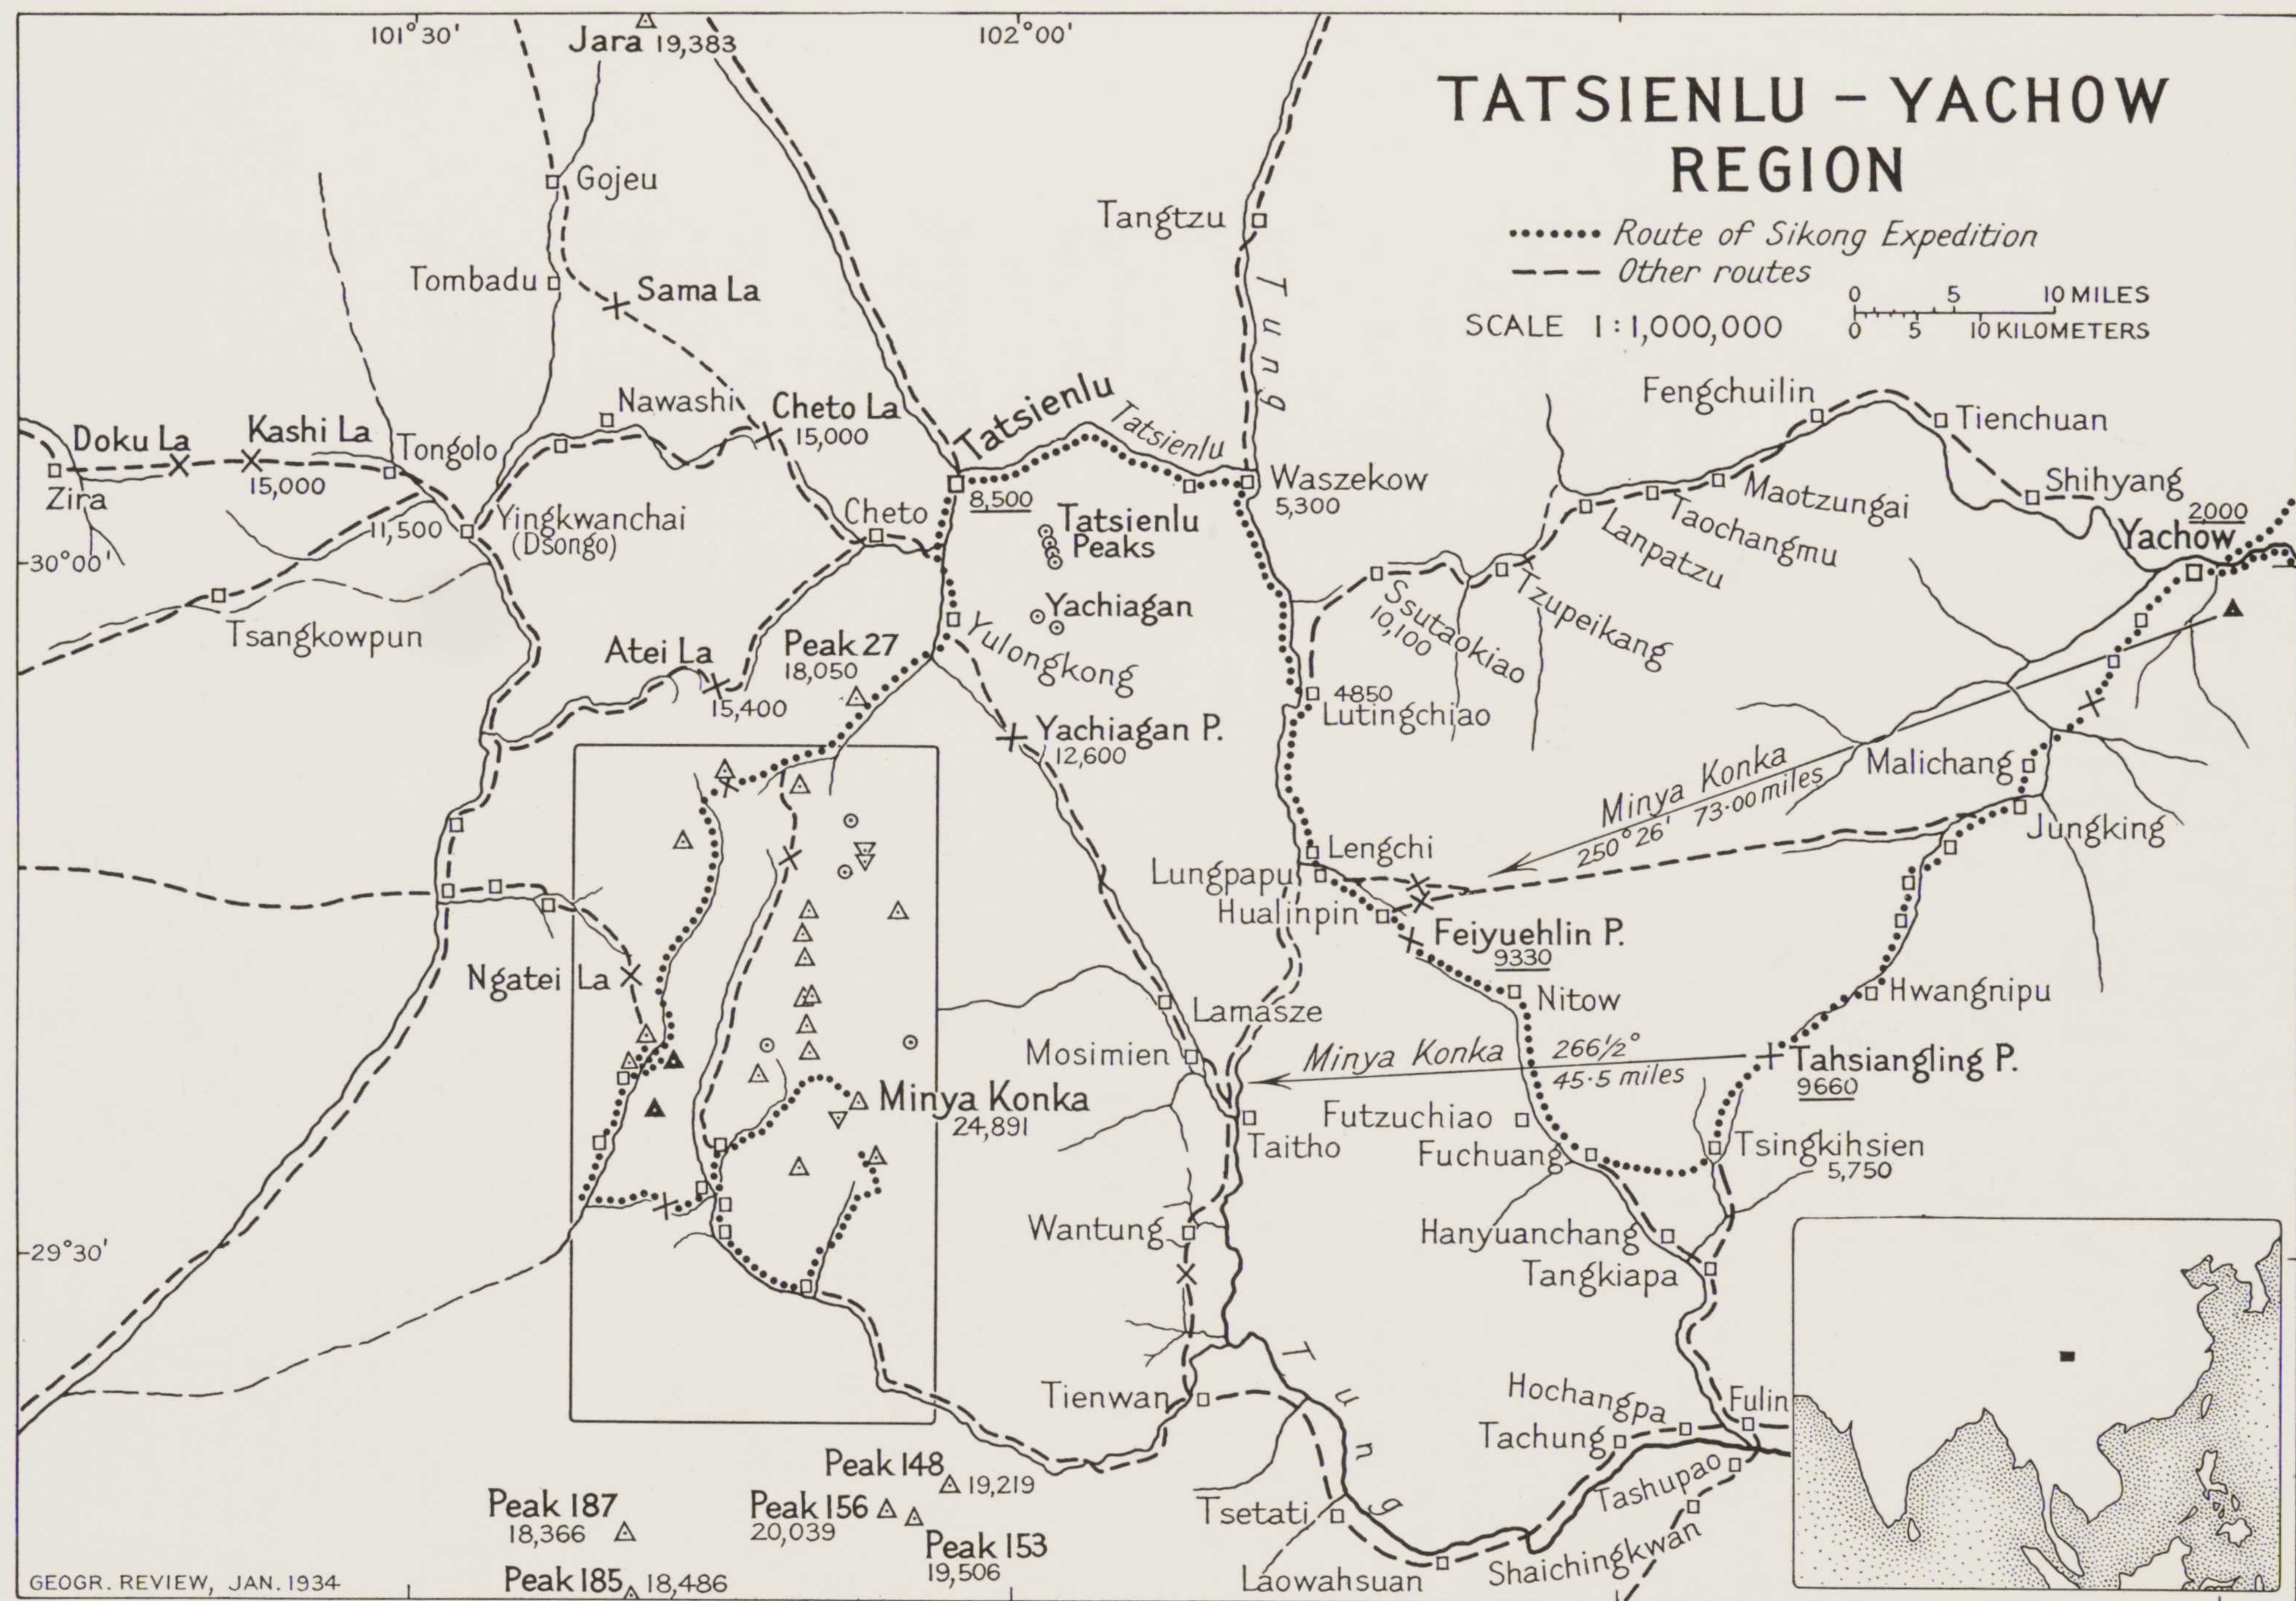

FIG. 3—This map was compiled from Survey of India 1 : 1,000,000 sheet 100 and "Kartenskizze von Tatsienlu und Minya Gongkar-Gebirge, 1 : 275,000," by Heim and Imhof, with a corrected grid and a few other changes and additions by the Sikong Expedition. Symbols are the same as on Figure 1. Peaks were given numbers corresponding to their magnetic bearings from station B. The position of Peak 156 agrees roughly with that shown for Tzumei Mt. on the Survey of India sheet.
