TWENTY YEARS OF MIRACLES

FOREWORD

By

LEROY NIXON, Th.M.*

The American Protestant Defense League is a work of faith and prayer. All of its work has been made possible by prayer and the gifts of those who prayed. Many of its accomplishments appeared humanly impossible but with God all things are possible. The intricacies of the Roman system cannot be understood by most people. Innocent victims of that system need the highly-specialized services offered by the League in the United States and Canada. These services are offered in the spirit of love for Roman Catholics as well as for Protestants.

The American Protestant Defense League is worthy of the prayerful support of Christians of all denominations.
