

and these debates give us a formidable forum for getting our message out to the general public.

Hence, we have an open door for sharing the whole truth regarding origins with large numbers of people.

Court Cases

As our funds and resources allow us to do so, we must continue to help deserving men and women who, as a matter of conscience, cannot allow their academic freedom to be withheld from them and thus file suits against school boards for the right to teach non-evolutionary views of origins.

In the past we have been involved in four court cases, one of which is still pending. To date we have won one and lost two, but in all the court cases tremendous publicity was generated creating much positive support.

Counsel & Support

One of the highlights of this ministry has been our advisory assistance we have given to teachers. We have distributed information to public school teachers in some 20 states. This information clearly spelled out what teachers can and cannot do. We also advise teachers one-on-one concerning the dilemmas they face.

We must continue this service to teachers for, without us, many of them face their struggles alone.

Literature

To my knowledge, we are the only organization in America that continually gives out a wide range of literature regarding academic freedom. Although our major emphasis is Creation/evolution, we also, from time to time, provide information on home schooling, equal access, etc. We have distributed hundreds of thousands of pieces of literature during the past nine years.

Texts for Science Teachers

Some time ago I came to you with a proposal that we begin providing good science textbooks for science teachers. We already have had calls for the books from public school teachers. Unfortunately, we have not raised enough funds to carry out the project and I refuse to go into debt over a project such as this. **Please pray with me that the necessary funds will come in.**

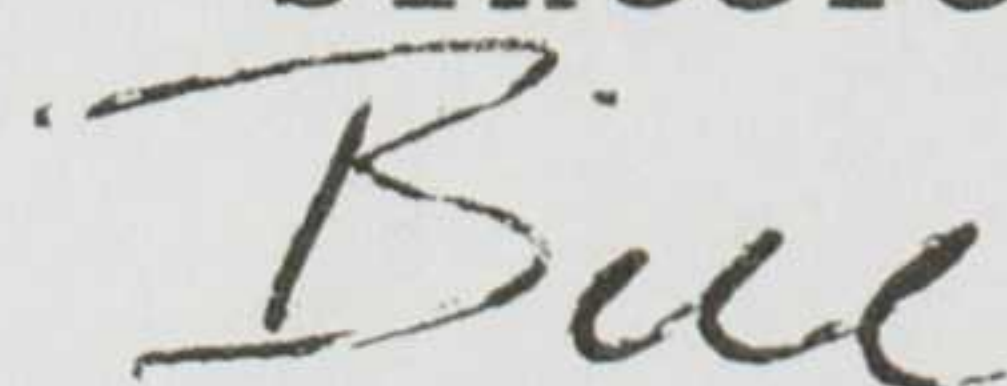

So there you have the six points of ministry, my continuing vision for The Legal Defense Fund.

You tell me, am I on track? Is this the direction we should be going? Is this the kind of ministry you want to support?

If so, let me hear from you this next month. For some reason giving was way down in September and I don't know why. We need for you to send that extra special gift this month to help us get back on track.

God bless you and I'll be looking forward to hearing from you.

Sincerely,

Bill Keith, President
The Legal Defense Fund
