CHAPTER V - UNITED STATES

National Socialist White Peoples Party (American Nazi Party)

The name George Lincoln Rockwell is inescapable when we study the present day Nazi movement, he was the first individual to identify openly with the swastika and the name Nazi in a political party since the end of World War II. Rockwell influenced by the late Joe McCarthy, as was the entire Right-wing revival at that time, formed the AMERICAN NAZI PARTY in 1959 shortly before the world wide swastika outbreak. He was instrumental in forming the international Nazi organization WORLD UNION OF NATIONAL SOCIALISTS linking his group with Nazi groups all over the globe. This apostle of hate pushed himself and the AMERICAN NAZI PARTY into a prominence not shared by other neo-Nazi and ultra-Rightist groups. Rockwell became a celebrity in his own right and drew overflow crowds at the colleges where he spoke, caused large street disturbances---in Boston, Mass. he was nearly attacked by an angry mob of thousands while picketing the movie 'Exodus'

Rockwell campaigned quite actively for the governorship of Virginia in 1965 he received only a little under 7000 votes however. In spite of this election attempt the Nazis claim only to want to become known as the most active group in opposition to Negroes, Jews and the so called traitors in our government, so in the event of economic disaster the American people will turn to them for leadership.

Rockwell authored a tremendous amount of propaganda including two books "This Time the World" and "White Power" plus a semi-regular publication 'The Rockwell Report' now defunct. The party now produces a newspaper 'White Power' and a magazine 'The Stormtrooper' plus a membership newsletter 'National Socialist Bulletin'. The NSWPP operated WORLD UNION OF NATIONAL SOCIALISTS has its own supposed intellectual quarterly 'National Socialist World'.

Upon the death by an assassins bullet the leadership of the NSWPP went to one of Rockwell's more tenacious lieutenants Matt Koehl. Koehl has taken firm hold
