

WANTED

Your Compelling Story About How FRC Has Helped You...

Have you benefited from the work of Family Research Council?

Now you can help us spread the word about Family Research Council and our message of family, faith and freedom. We want your stories about how the work of Family Research Council has impacted your life.

FRC seeks to extend a strong and relevant message of Family, Faith and Freedom to a larger number of people -- *people who may feel their values don't have an advocate in Washington*. And what better way to speak to those who haven't heard about FRC than through the words of those who identify with our mission.

We want to hear how FRC has helped you in your neighborhoods and schools. Have our fatherhood and abstinence campaigns affected you, or has the information we've produced on religious liberty equipped you in your workplace or school? Does the fact that FRC is voicing your values within the mainstream media provide daily encouragement to you and your family? **Whatever the reason, we'd love to hear from you!**

Please write your story on the reverse side of this letter and return it to us in the enclosed postage paid envelope. The more detailed your story, the better. Your words may be used to inform others of FRC's pro-family efforts and to assure them that they have an ally in Washington. Feel free to use additional sheets of paper if necessary.

Thank you for your help.
