

Suddenly, Israeli jet fighters (made in USA) appeared. They swept over the unarmed ship bore a huge American flag and conspicuous markings.

Then, without warning, Israeli jets and torpedo boats (also made in USA) launched a lightning attack on the ship in a wanton attempt to sink it. Zionist propagandists had already planned to blame the deaths of the 200 U.S. servicemen on the Egyptians as an excuse to get America into the war on their side.

But although it took 100 hits, the Liberty did not sink. And although an untold number of American servicemen were killed in the cowardly, treacherous attack, some of them survived - many badly maimed and crippled for life - to divulge the true story, which was quickly glossed over.

THE LAVON AFFAIR.

For their part, the Israelis shed a few crocodile tears, said it was a terrible mistake, and promised to pay for the \$4-million-dollar's damage to the ship. Today, eight years later, the United States has yet to receive the first red cent from the Zionists for this foul act.

In 1954, the Zionists tried to stage a similar provocation and blame it on the Egyptians. U.S. Information Service libraries in Alexandria and Cairo were bombed, along with theaters which featured American films. The incidents were made to look like terrorist acts by the Egyptians against U.S. interests.

Police, however, quickly apprehended 11 Egyptian Jews, who admitted working for Israeli intelligence. They told how they had been ordered to commit these acts in order to destroy the friendship that was developing between the United States and Egypt.

The sinister incident became an Israeli Watergate. Known as the Lavon Affair because it forced Israeli Defense Minister Pinhas Lavon to resign, it brought down the entire government of Prime Minister David Ben-Gurion. Several of those involved in the plot recently disclosed that Zionist military boss Moshe Dayan was also mixed up in the scheme.

A growing number of Americans are beginning to wonder what new Liberty and Lavon incidents are being plotted by the criminal parasites in Tel Aviv and Jerusalem.

A chilling indication of Zionist intentions comes from the disclosure that these international bloodsuckers have now decided that America must share battlefield casualties with Israel in any new Mideast war, since Israel suffered such heavy losses in 1973!

The stage is being set. Within the next two months, the U.S. and Israel will conclude a contingency plan for a military supply operation to Israel "in an emergency situation."

Meanwhile, it is reported that the so-called technicians being recruited for the Sinai assignment will be "retired" CIA agents. The agents will be "retired" shortly before they are due to report for duty.

Significantly, a congressional amendment introduced by Sen. James Abourezk (D-SD) which would have barred the use of U.S. armed forces to rescue these "technicians" was voted down. And that's the little sleeper!

The stage is gradually being set. Dr. Kissinger hasn't brought us closer to peace in the Middle East. What is actually happening is that the United States is being sucked, step by step, into a new Vietnam. That is the real meaning of our Zionist Secretary of State's step-by-step diplomacy!

Will your son, or husband, die needlessly in a Mideast war? Unless we act without delay our nation will soon be involved in a Zionist created war - AMERICA AWAKE!

(Over please)
