

Greeting Cards

Finally, in response to continuing requests from Atheists throughout America, the headquarters of American Atheists has prepared a four-season set of Solstice/Equinox greeting cards which will be available for purchase and delivery in time for the upcoming Autumnal Equinox in September.

These seasonal cards will be 4¾ by 6½ inch on a high-quality textured paper and each will feature an appropriate nature scene which has or will appear on the cover of *The American Atheist* magazine. The field of Texas bluebonnet flowers which graced the March '78 cover of *The American Atheist* magazine will appear on the Vernal Equinox greeting card, and the hardy cactus plant of the June '78 *American Atheist* cover will be used for the Summer Solstice card. The Autumnal Equinox and Winter Solstice cards will reproduce the upcoming September and December '78 *American Atheist* magazine covers, respectively.

An appropriate seasonal poem by American Atheist Gerald Tholen will be on the inside page of each greeting card with a short prose explanation of each on the rear page. The American Atheist Center has taken considerable efforts to produce these unique, one-of-a-kind greeting cards according to the many written and verbal requests of Atheists and freethinkers around the country who recognize the need to celebrate these ancient holidays which are set by the motions of the celestial bodies — independent of all arbitrary assumptions of authority or creeds.

Prices for the American Atheist Seasonal Greeting Cards are \$5.00 per seasonal dozen, including matching envelopes and prepaid postage and handling. A special introductory discount price for a set of four dozen (12 of each season) will be offered at \$17.50.

Atheists may now assist in educating their friends and relatives concerning the seasonal origins of most holidays while at the same time expressing their love and thoughtfulness with greeting cards specifically designed and produced for American Atheists. Because of the high costs involved in producing these cards with a full-color cover, a limited first edition will be offered on a first-come, first-served basis.
