

We are the Anarchists Association Of The Americas. The association is currently taking the position of punitive conscience for the Americas and the world. We analyse world events for injustices which may not be clearly evident through normal media sources. We alert our readers to hypocrisy and propaganda which is an attack on their freedoms.

We the A.A.O.T.A. will appreciate any reports you have of this sort, gladly. We are a sensitive group who will listen to your replys. If you have the spirit we'll take you on as a friend and member your help is needed. Good articles will be printed so all can be made aware of your critical incite. Money is important for us to thrive, but the cause is more important. Your name as a helper is worth all. Please reply. Look at your world and neighborhood and all in between with a sharp eye. Take note of what you see and let us know brother.

R.S. Vigeant

This is the Association's third issue and there are many more on the way, but your help is essential to making our voices heard by the populace and the bureaucracy. At this point we are confined to the East Coast with your help we can put an end to this limitation. With this increase in readers will come a larger edition each month. But only with your help, NOW. Either sit back and join the sheep ready to be sheared or Stand Up and Make Your Voice Heard!

JOIN the A.A.O.T.A. AND MAKE YOUR VOICE COUNT!
