

WHICH VISION WILL PREVAIL— HILLARY'S GOVERNMENT 'VILLAGE' OR YOUR FAMILY VALUES?

The issues that are moving the nation are the urgent questions you have raised about America's future. Millions of Americans find themselves hard-pressed, with mothers and dads both struggling in the workplace, burdened by heavy taxes, and concerned about what is happening to their kids when they're not at home. Today, parents worry about violence in schools, about dumbed-down

academic curricula, and about on-campus "clinics" that dispense contraceptives and refer for abortions.

Gary Bauer has written *Our Hopes, Our Dreams* to give a message of encouragement to America's families. His book is the antidote to Hillary Rodham Clinton's social prescriptions for the ever-increasing government involvement in your family life. Order your copy today. Share it with your friends, neighbors and family members.

ROE v. WADE II— THE GAY 'MARRIAGE' BANDWAGON

Homosexual activists are moving aggressively to legalize gay "marriages" while the country is distracted during this political season. The legal challenge to traditional marriage is even now advancing through the courts. Will we face

more radical judge-made law? Or will the pro-family movement rally in time to defend the stability and integrity of traditional marriage? Order FRC's latest *Family Policy*, "Gay 'Marriage'" and be prepared for the coming storm.
