

We received a number of responses to the issues survey which was enclosed with my Christmas letter. Since December is traditionally a busy month, however, I'm certain that many who have not yet responded would like the opportunity to do so. (For those of you who have already responded, we thank you for your input.)

As the Family Research Council finalizes its plans for the new year, we would like to know which family issues, in your opinion, need the most attention. Your prayers and concerns are crucial as we move to strategically place ourselves to defend family, faith and freedom. Please rank the top three concerns to your family from 1 - 3, with 1 being most important.
