

booklet lists in chronological order the events that once made our money "sound as a dollar" -- as well as the subsequent events that since have made it a depreciating currency that no longer promises any future value.

We offer the three easy-to-read publications briefly described on the previous page at half price, or just \$3 postage paid. We urge you to order copies for yourself and for friends and family today. Please use the order form below and the enclosed convenience envelope. We will refund your money if you are not satisfied with the helpfulness of these succinct publications.

Sincerely,

Lawrence S. Pratt
Director of Research & Education

P.S. Please also see coupon and other letters for our special \$10 offer for all five publications described in this package.

"A disordered currency is one of the greatest political evils. It undermines the virtues necessary for the support of the social system, and encourages propensities destructive to its happiness. It wars against industry, frugality, and economy, and it fosters the evil spirits of extravagance and speculation. Of all the contrivances for cheating the laboring classes of mankind, none has been more effectual than that which deludes them with paper money."

Daniel Webster, 1846
