THE MENACE OF COMMUNISM

J. Edgar Hoover is generally regarded as one of the best informed persons on Communism in the Country. Among his frequently quoted statements are the following:

"Communism is the major menace of our time. Today it threatens the very existence of our Western civilization."

"To dismiss lightly the existence of the subversive threat in the United States is to deliberately commit national suicide. In some quarters we are surely doing just that."

"We are at war with the Communists, and the sooner each red-blooded American realizes that the better and safer we will be."

Let me also quote from the 1958 Report of the American Bar Association's Special Committee on Communist Tactics, Strategy and Objectives:

"The real strength of Communism in the United States is the number of non-Communist organizations and individuals who will collaborate with the Communists. For every Communist Party Member there may be 100 non-Communists who will do the work of the Communists."

"The Communists now have six hundred fronts. In addition they have 'fronts in front of the fronts.' Making use of their fellow travelers and dupes, plus their 'united front tactic,' the Communists boast they can have fifty thousand letters on any issue sent to Capitol Hill or the White House inside of seventy-two hours . . .

"The greatest asset the Communists have at the present time is not the hydrogen bomb, certainly not Soviet satellites, but world ignorance of their tactics, strategy and objectives . . .

"Most persons who are informed on Communism think our country is now in greater danger than were the Titanic and Pearl Harbor . . .

"It is now an established fact that every institution, every force and every person actively engaged in the forefront of the defense of our Country against the rising menace of Communism becomes the target of attack and vilification by Communists, Crypto-Communists, fellow-travelers, their stooges and innocent but beguiled persons."

May I add that the more effective an organization is in exposing the Communists conspiracy, the greater the attack against it.

In the past twenty years the Communists have increased their control over the peoples of the world from about 180 million to over 1 billion, a third of the world's population; and their control is being steadily extended.

If we lose the cold war, the result will unquestionably be the liquidation of many of our people and the enslavement of the rest.
