

PETITION to My Senator

Whereas we have record budget deficits; and,
Whereas Congress is looking for ways to cut spending; and,
Whereas the National Endowment for the Arts continues to spend precious tax dollars funding offensive, hate-filled, pornographic, anti-Christian “art”;
I, therefore, PETITION you, my Senator, to work to shut down the NEA once and for all. This is not a question of “censorship”, it’s a matter of “sponsorship.” America does not need government-sponsored and government-paid-for “art” that attacks, demeans or belittles any one group of citizens.
