

Flag Successes

Hubbard® Professional TR Course: The course is a vital tool for anyone! Auditors, executives, administrative personnel.

I really understand what it takes to communicate and wouldn't trade this knowingness for anything! It's hard to explain what this course is to me and how it has put in such a firm foundation.

I can only say I am looking forward to my new life of confronting and communicating!

I sincerely hope that all take this course.—S.Q.

Academy Level 0: I thoroughly enjoyed the course, especially the auditing. And I'm raring to go on Level I. The more auditor training I do, the more it influences my life across the dynamics and the more training I want to do. Thanks to Flag supervisors and C/Ses and, of course, LRH!—E.P.

Class IV Interneship: Wow! I have just completed my Flag Class IV Interneship! This is a goal that I have been striving for for a long time and I can say with certainty that I have achieved this incredible goal. By being at Flag I have attained the certainty that I can flublessly audit any pc requiring Class IV actions. I feel that I have abilities to Clear the planet and with the tools I have now as an auditor, I am well on the way to doing it. I can hardly wait to start my next level of training. Thank you to LRH for the incredible tech! —S.B.

False Purpose Rundown® Interneship: This was possibly the toughest training cycle I've ever done—and the most rewarding. In learning to standardly audit LRH's False Purpose Rundown I've seen sick people jump out of bed and dance to the examiner after a session. I've watched psychosis melt away before my eyes. I've seen pcs who felt they had no past life recall suddenly open up and confront their whole track head-on, blowing heavy incidents they were stuck in. I've seen major life ruins vanish in one short session, after years of the pc trying to handle them in auditing.

With proper training on this rundown, every session you do is a big win. And the toughness of this interneship has become my guarantee that I can always get the result expected with LRH's tech.—D.M.

Clear Certainty Rundown™ pastoral counselling: What a terrific action! I have been sitting in some mass for a long time, ever since I went Clear. I really blew that mass out of my universe, and what a great feeling that was! The feeling of it being gone is remarkable and very pleasurable. My space is so clean and life seems really *alive* to me. I went back and took a look at perhaps the finest moment on my whole track, the moment I achieved the beautiful state of Clear.—C.S.

OT III: This level has changed my life! Physically, mentally and spiritually. I have never felt so unburdened and so alive and confident. There is a definite calmness about being, which is extraordinary. LRH is incredible!—K.R.

New OT V, Audited NOTs®: This is the most exciting level I have ever done. The wins are *incredible*. My perception keeps rising and rising. The last few days I have been commenting that I was feeling "squeaky clean." That's how I feel—clean and beautiful, full of love and joy. I want everyone to know the excitement I feel today, the knowingness that there is a future for me and for all Scientologists.

I want to thank my Flag auditor for his knowledge, his metering, his patience. When the job gets tough it's a real treat having total trust and confidence in your auditor.

I especially love Ron for mapping out The Bridge. A most remarkable achievement!—M.S.

New OT VII, Solo NOTs® Auditing: This is precisely the best moment of this universe for me. I am a rehabilitated thetan. I am free.

It is quiet. My space is clean. I can have anything in my space or not have it. I am truly in valence as a thetan. I am a static.

I can honestly say that auditing the level was not hard. The real work was done by LRH. I am truly grateful.—R.B.

L 11 New Life Rundown™ advanced pastoral counselling: If one could imagine what it would be like to have a lightning bolt wipe out the major stop in one's life, that is what L 11 rundown has been like. My space is now a lot calmer and more peaceful. Concerns and worries I previously had are no longer a source of "what should I do?" I now know what to do. And I have a lot more ARC for people. It has been a great action with lightning quick results! I do indeed have a new life.—M.P.

Class VI Case Supervisor Course: This was quite something, especially the practical part! I had already done some auditor training—and here at Flag you cannot underestimate the 100% standard tech that you get every time no matter what course or level you do! As a C/S in-training, I had to put on the beingness of a C/S—what a great thing to be able to do and what a feeling of personal expansion goes along with that! Training is the most valuable, beautiful thing there is in Scientology—wins over wins; one can really become a professional here!—R.T.
