

sea of "modern" cultural relativism, behaviorism, moral subjectivism, and the rest of the ideology which dominates the textbooks of our superscientific age.

Professor Coleson's books are encouragingly different. Clearly and simply written, well-documented, and containing a helpful list of suggested readings, these paperback volumes offer, within the compass of approximately 200 pages each, a straightforward and sound introduction to many aspects of the religious, historic, and moral heritage of Western Man. Throughout,

the author relates that heritage to the problems we face today and lays a foundation for the reader to do some fundamental thinking of his own in contemporary economic, political, and ethical questions.

Either or both books would make a genuine addition to many courses in introductory "social science" on the college level. They would be especially valuable as supplementary readings for courses already established, but would also make good reading for anyone interested in the restoration of the values of Western Civilization. ♦

HANDSOME BLUE LEATHERLEX **FREEMAN BINDERS**

Binders with Issues inserted
for Calendar Years 1963 and 1964:

Either year \$ 5.00

Both 10.00
