

THE BELIEFS which identify a libertarian—as defined by Dean Russell—are not the vogue today. And in their absence grow and thrive the opposite beliefs—label them state interventionism, socialism, communism, Fabianism, nazism, facism, the planned economy, the Welfare State, or whatever.

Aiding those who seek better understanding and greater skill in explaining libertarian ideas and ideals is the task to which FEE is dedicated. Anyone, anywhere, may receive FEE's monthly journal—*The Freeman*—and other studies for the asking. The services offered by FEE depend upon voluntary financial support from individuals, businesses, and grant-making foundations.
