The following is an article we received from the Christian Family Renewal:

Just When You Thought Your Children Were Safe From Homosexual Advances, Congress Introduces House Resolution #230: The "Gay Bill of Rights."

Homosexuality is not going to go away until you take a stand on the issue.

The "Gay Bill of Rights" was introduced in the House of Representatives on January 3, 1985, by Congressman Ted Weiss, a liberal Democrat, and 45 co-sponsors (including representatives from the most ultra-liberal homosexual centers in the nation: New York and California). The bill was referred jointly to the Committees on Education and Labor and the Judiciary, where it is currently under review.

So you see, it's not hard to understand why such a bill has been nick-named the "Gay Bill of Rights," especially when it will:

- A. Legalize homosexuality and lesbianism.
- B. Criminally prosecute all churches, schools, businesses, and local, state, and federal agencies for refusing to hire homosexuals for any reason.
- C. Criminally prosecute any individual -- you or me -- who refuses housing accommodations to homosexual/lesbian couples.
- D. Set a precedent by which the homosexual/lesbian sub-culture can legally:
 - 1. repeal all sodomy laws and laws governing the age of consent, so as to lower the age for children to legally participate in perverted sex acts;
 - 2. allow the legal marriage of homosexual/lesbian couples and their adoption of children;
 - 3. require all public schools to create sex education courses taught by homosexuals to show their lifestyle is a moral, healthy, and normal alternative to heterosexuality.

In fact, the shocking truth is that homosexual/lesbian groups have already accomplished many of these moral outrages through state and local legislation. The Congressional "Gay Bill of Rights" will just enforce it nationally.

You see, under the Carter Administration, the Internal Revenue Service inferred government acceptability of homosexuality by recognizing homosexual/lesbian groups as "charitable" for tax purposes.

At present, the gross annual income of such groups, operating under the IRS "non-profit" status, is estimated to be \$245,625,000 AND APPROXIMATELY 45.63% OR \$107,092,500 OF THE TOTAL INCOME FOR THESE ORGANIZATIONS COMES FROM YOUR TAX DOLLARS -- LOCAL, STATE AND FEDERAL.

Homosexuals have infiltrated practically every political, social, cultural and economic government institution in existence. Now it's only a matter of getting HR-230 passed to guarantee their rights to flaunt their perverted lifestyle publicly and privately. And to insure that any citizen opposing this is liable for criminal prosecution.
