

Down to Earth *Spirituality*

by *Albert Fritsch, S.J.,*
with photography by
Warren Brunner

A moving journey from heart to heart - from our heart as healers to the heart of the Earth. Through word, photo and reflection, you are invited to change your way of life, to learn about the here (your "bio-region") and now (our crises-ridden times), and to discover the community of poor human beings. Ecology meets social justice, and the two are found to be one.

Spirituality, says Fritsch, is not a hidden insight, a single moment; rather, this down-to-earth variety regards Earth as teacher and the process as slow, gentle, and ever more humbling. This is a book for all who are concerned and "in touch" with the Earth. Environmental action is a matter for everyone, not just "experts." Discover here your own powers to help heal and to be healed in the process.
