

ATTENTION OF THE READERS:

"The Menace of Roman Catholicism in the United States and Throughout the World," should be read by thousands of Roman Catholics as well as Protestants. Why not order 100 copies or more for free distribution among your neighbors and friends? You can use the mail in sending them out. It deals with the true conditions existing behind convent walls and other institutions of the Roman Catholic church. No pamphlet that we know of in circulation is crowded with such an amount of facts about Rome and Romanism in the United States and throughout the world. The cost is 25 cents a copy, 6 copies for \$1.00, or 100 copies for \$15.

Many letters have come to our office from friends we have never seen. These are all appreciated, but unless postage is enclosed for a reply, it will be impossible to answer as the expense is too great.

If this pamphlet should come to you by mail it is because some interested friend purchased a copy and mailed it to you. Will you not therefore, pass it on to one of your friends? Do not let this silent messenger die, keep it alive by passing it on.

THE MENACE OF ROMAN CATHOLICISM

The time has come when all real Protestant Christian people must know the truth, and nothing but the truth, concerning the pernicious and diabolical activities of Romanism in the United States. Many of our Protestant ministers in the past have utterly failed in not telling their congregations the facts regarding the proselyting and insulting tactics and intolerant attitude of the Roman hierarchy. Such ministers are either cowards or Jesuits in the employ of the Roman church. They are not Americans, and certainly not Protestants in the true sense of the word. A Protestant minister without a protest, does not belong in a real Protestant pulpit, but in a museum. He is like an electric engine without electricity. He is dead. What then can we expect from those who have to sit under such a ministry? No wonder Protestant people are not protesting today as in days gone by.

As a result of this intolerant condition, the Protestant Christian people like Christ are being crucified between two thieves,—communism on one hand and Romanism on the other. If something is not done soon to remedy this situation, it may not be long before the Roman church will have to administer the last rites to such people. Perhaps some have had the last rites administered already. This accounts for their lack of cooperation with every honest effort put forth by those who believe in fighting the good fight of faith for God, home and country.
