

JUST RELEASED! AVAILABLE FOR THE FIRST TIME!

Four selected original radio broadcasts of Colonel Charles A. Lindbergh, newly pressed on a 33 1/3 rpm, long-play record! This album represents over a full hour of smashing TRUTH, delivered in that clear, no-nonsense manner, straight from the shoulder, as only the Lone Eagle could do it!

HERE IS WHAT THIS IMPORTANT ALBUM CONTAINS:

1. Radio speech of October, 1939, "Neutrality and War." Lindbergh discusses the suicidal policies of the Roosevelt regime in dragging the U.S. into war and calls for the cancellation of credit to those who would "use" the blood and treasure of America.
2. Major address before 50,000 patriots at Chicago's Soldier Field, August of 1940. After a short introduction by Avery Brundage, U.S. Olympic Association President, Lindy speaks on "Our Relationship with Europe."
3. Lindbergh addresses 22,000 members of the America First Committee at New York City's famed Madison Square Garden in 1941. Lindy blasts the hypocrisy of those who cry "peace" while preparing for total U.S. involvement in the European meatgrinder.
4. Radio address carried over the Mutual network in 1941: Lindbergh states that the overwhelming majority of Americans (85%) wants no foreign involvement, yet this majority is to be overruled by a noisy minority.

We must rely upon his words of wisdom even more today. These speeches are a thousand times more valuable now than when they were delivered thirty years ago! They prove conclusively that those who demanded a policy of AMERICA FIRST were (and still are) RIGHT!! This is the real voice of the real America.

These are actual radio transcripts, not "dramatizations." They have been taken from studio originals, newly mastered for full sonic brilliance and pressed on first quality LP discs.

You will surely treasure these rare original recordings; they will make a valuable addition to any patriotic library of information. Play them for your friends. Play them for new people, those just beginning to show an interest in our side. Most of all, play them for the young people you know. Let them have the opportunity- for once in their lives - of listening to what an American Patriot was saying about peace and war.

This album is not available from any other source, and definitely not sold in record shops or department stores! This will be a limited pressing, and you might not have the opportunity of ordering them in the future.

Each album is \$6. And worth every penny of it, considering the rarity and unique nature of its contents.
