"Our Eleventh Year"

Dear Friends and Partners:

This is a sad day -- but I believe the time has come for us to close the doors to this ministry. We can conclude this work, however, with our heads held high for we accomplished most all of the work we believe our Lord called us to do.

Therefore, unless we receive a miracle of financial assistance, this will be the last newsletter you will receive from me.

Let me dearly thank you for the words of encouragement from so many of you in response to our January newsletter and our urgent appeal for help.

For the past 10 years we have been a family and we worked together doing our very best. We took our case for Creation to the whole world and even had our day in the U.S. Supreme Court.

We helped teachers! We helped students! We helped parents! We helped our friends in Europe and Africa with Creation materials and even sent those materials behind what once was called "The Iron Curtain."

Everywhere we went we did our best: PTL (twice), 700 Club (three times), NBC, ABC, CBS, Public Broadcasting. In the Washington Post, USA Today, Boston Globe and in hundreds of other newspapers, dozens of radio and TV interviews and speaking personally to thousands -- we always did our best!

Now we come to the end of this journey and let me say, it's been quite a trip!

We will have some financial ends to tie up so I hope you will pray about sending us a good final gift so we can pay our bills, and maybe our final salaries, and go out smiling.

There are so many people I wish to thank for all of their help: our Board of Reference, our attorneys, our Board of Directors. But I want to say a special word of thanks to Max Reiboldt, C.P.A., who so faithfully these 10 years has handled all the funds that have come into this ministry and has done it with such professionalism and willingness. And to Faye Law and Janet Tippet and all the others who worked with this ministry, I say thank you.
