

ABOUT THE ALLIANCE

Formed in November, 1989, the Alliance for Our Common Future is a partnership undertaking of 50 national and regional organizations. It serves as a means to develop non-partisan strategies, identify common priorities and exchange information to eliminate duplication of effort. The Alliance encourages efforts to promote social justice and economic development, and to foster human values and respect for nature worldwide. Such efforts address causes of conflict and help to create the moral and political climate in which just and effective structures for peace can develop and endure.

To that end, the Alliance supports strengthening international organizations such as the United Nations and the World Court, and regional organizations so that they can:

- peacefully settle international disputes;
- preserve and regenerate a livable world environment;
- promote human rights, social justice and a dynamic world economy; and
- support democratic institutions at all levels.

With effective regional and global structures for peace in place, nations can reduce their military spending and free resources for human and environmental needs.

ABOUT THIS BROCHURE

This brochure is a project of the U.N. Task Force of Supporting and Strengthening the U.N., a sub-unit of The Alliance for Our Common Future. As part of this project, UNA-USA Action Alerts calling on Congress to approve the Administration's request for full U.N. funding for 1990 were widely distributed.
