

WE ARE ATHEISTS BECAUSE:

There is no proof of the existence of god.

There is no need of, or use for, a god.

A good god would be useless if he were not powerful.

A powerful god would not deserve worship if he were not good.

There is no all-powerful good god; otherwise, there would be no imperfection.

If this is the best world god can make, the stories of Heaven must be lies.

History shows that godism is accompanied by ignorance and superstition.

There has never been such intolerance and persecution as godists have practiced.

Godism had to be fought when man made his successive steps toward science, liberty, and reform.

Godism was invented in the earliest days of man's ignorance. It is incredible that primitive man guessed wrongly about everything else, but discovered the truth about the origin of life.

Everything about which science has discovered the origin was claimed previously to have been the work of god. Godism recedes when a new fact is discovered. No new discovery ever supports a theistic explanation of anything.

All revelation proves, on investigation, to be human, and generally fraudulent.

Godism is consistent with crime, cruelty, envy, hatred, malice and uncharitableness.
