

Germans Invent Gas Saver

An amazing new product, invented by the ever-resourceful West Germans, has recently been approved by the U.S. Environmental Protection Agency, as a means of cutting down on OPEC OIL consumption. The new product, known abroad as Formula X-10 and in this country as MY PART, is currently being used by a number of U.S. trucking companies and is now available thru a few distributors for American car owners.

Those who have used the product, say it has increased their gas mileage by as much as 30%. Other alledged benefits derived from using X10 or MY PART, are: it reduces engine wear; cleans the carbon off of spark plugs; burns off excess

moisture in the cylinders; improves combustion and provides more power and smoother acceleration. And this amazing new product costs less than anything on the market today. Just one 2 once bottle will treat 80 gallons of gas! Until supplies run out, Formula X-10 is available by mail thru VINLAND ENTERPRISES Box 101, 5018 W. 16th Street, Chicago, Ill. 60650. The cost \$1.98.

KODAK Film For 30 Cents A Roll!

TRIDALE ENTERPRISES, a local firm in the Chicago suburb of Park Forest South, in conjunction with the National Photo Association, offers a unique way for patriots to make money for themselves, while at the same time they can help toward the upkeep of the patriotic movement. TRIDALE is offering for sale a coupon book with 100 coupons valued at \$300. Each coupon will redeem itself for one color roll of Kodak film from 12 to 36 exposures.

The film is available for 110, 126, or 35MM cameras. And there is no time limit on how long you can use the coupons. In addition to the value of the coupon book, TRIDALE also makes it possible for you to be paid a handsome commission on each book you sell.

While not everyone will be receiving the huge sums TRIDALE claims it is possible to make, even a couple of hundred dollars in commissions is still worth the little effort it takes to sign up new members of this unique, but worthwhile venture. Complete details on this program are given in the enclosed yellow brochure.
