

\$100,000,000. This amount, bear in mind, in addition to the \$153,000,000 already budgeted this year by UJA. American Jews were beginning to learn that Israel's "philanthropic" needs were indeed on the increase as the prospect of a new Arab-Israeli war increases.

This is the inscription which appears over the entrance of Israel's new parliament building in Jerusalem. It reads as follows: "Israel, forget not that your frontiers extend from the Nile to the Euphrates." Seldom in history has a notice of conquest been so arrogantly displayed for all the world to see.

And they intend to do it with your American tax-free dollars.

WASHINGTON, D.C. (Delayed) — The CHICAGO TRIBUNE has published a breakdown of official statistics which show that the state of Israel, with a population of 1,675,000, has received more foreign aid grants and credits from the U.S. treasury than all the Arab nations combined during the past eight years. The Arab nations, with a total population of 63,761,000, have received \$376,322,000 since 1948, while Israel obtained \$404,000,000 in U.S. funds during the same period. On a per capita basis this means the impoverished Arabs have received slightly less than \$6.00 each in U.S. aid, as compared with \$241.00 for each of Israel's Jews... In addition, TIME Magazine in its Jan. 21, 1957 issue reveals that the state of Israel has collected almost a billion dollars (mostly tax free) from U.S. Jewry since 1948. Of this, TIME listed \$270 million as coming from Israeli bond sales, while more than \$700 million was raised by Jewish "charitable" organizations.

EISENHOWER MYTH EXPLODED; JEWS BLACKLIST HIM FOR OPPOSING ISRAEL:

SPECIAL — Perhaps the most startling phenomenon ever witnessed in contemporary American politics was the sudden transformation of Ike Eisenhower from a political sacred cow, and near demi-god, into the much criticized and beleaguered figure he is today. The transformation occurred almost overnight, and the cause of it all was his unexpected action in forcing Israel's Jews to give up the Egyptian territory they had seized during the sneak Anglo-French attack on Suez. That single act ended Eisenhower's status as a sacred cow.

The big switch, as previously noted, came in February of this year when Eisenhower appeared before the TV cameras to announce that the United States government was prepared to back the United Nations in its efforts to compel Israel to withdraw from Egyptian territory. Israel was, said Eisenhower... "guilty of aggression." Furthermore, he declared, "...the future of the United Nations is involved." Israel must give up its conquered Egyptian territory at Aquaba and Gaza or face the consequences.

That did it. From that moment on Eisenhower became the target for more Jewish
