

American Star Attractions

March 31, 1978

Hon. Kendall Cote, State Representative
159 Wilson Street
Manchester. N. H.

Dear Fellow Patriot;

We welcome your order for "Pawns in the Game" 2-record album. The price is \$14.95 posppaid. Shipping materials, as we do, to all manner of countries requires operating on a cash basis. However, "Pawns" is in stock right here, and will be shipped within a day of receiving payment.

Please don't assume any lack of desire to cooperate from this cash requirement, quite the contrary. Just last month we surmounted enough difficulties to establish the long-needed full-scale Information center to promote American Independence and combat Communism thru all media. We are here to help all true patriots, most of whom can - and we trust, will help us too. in very many ways.

Personally, I not only know and admire both your state and Governor Thomson, but, rather specially, the strategy of electing officials in small-population counties and states. For example this year there is a strong American Party candidate already for Kansas governor, a near-American Party candidate for governor in Alabama. We believe the same thing should be happening in not only several western states but in Vermont, R. I. and Delaware in your area. Tho it will be late for most primaries, I expect to be on east coast myself in early summer, helping in all ways possible.

Please keep in touch, share your "know-how", perhaps even plan one or two small-group meetings so other good "Home-Rulers" can take advantage of our new, large-scale, professional outreach.

Faithfully yours for responsible freedom,

Cecil Clyma
(Mrs.) Cecil Clyma
