

Both oppose: The Bricker amendment, the McCarran Act, the right to work laws, the Taft-Hartley Law, congressional investigations of communism, and breaking diplomatic relations with Russia and her satellites.

Unless a conservative leader, like J. Bracken Lee, Governor of Utah, can be found and nominated who will represent the opposite of these two candidates' views, two party government will have disappeared from America in favor of a bipartisanship, no different in effect from the Russian one party system. Therefore, those who would preserve the American system should watch the various individuals who are speaking up for America. Their support should go to the most promising and outspoken of these to obtain for him his party's presidential nomination.

The thought of creating a third party is repulsive but after months of deliberation, consultation and the deliberate sell out of the people at the last Republican convention still fresh in our minds, we recognize a third or coalition party is necessary and essential at this time to prevent a one party system.

The two major parties are now divided into conservatives and liberals, therefore, a coalition party will reduce the four parties into a two party system, Liberals and Conservatives.

The political ground swell at the grass root level is terrific and is mounting each day. Some people have given up in despair while others continue to fight, hoping and praying that a miracle will happen in 1956, which will bring forth a man who believes in America.

We are confident this Nation can be saved from the clutches of the Socialistic one worlder's, provided we create a sound organization with Pro-American leaders and a program and platform based upon our National and States constitutions, American principles and ideals.

Shall we gather strength by inaction, shall we acquire the means of effectual government by closing our eyes and ears to realities? Shall we close our mouths for fear of abuse or smears or shall we hug the delusive phantom of hope until our enemies have built their war machine with our money.

We are not weak if we make proper use of the means which God of Nature has placed in our power. He gave us Life, Liberty and the pursuit of happiness. We are capable of retaining these God given rights if we act wisely and promptly.

Fifty million Americans armed in the holy course of liberty and in a country as that which we possess are invincible by any force which our foreign and domestic enemies can send against us. Besides we shall not be fighting alone. There is a Just God who shall guide and help us to preserve a Nation dedicated to individual liberties and the dignity of man.
